## II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the international Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

### (A.)—NEWFOUNDLAND.

AN ACT FOR GRANTING TO HIS MAJESTY CERTAIN DUTIES ON GOODS, WARES AND MERCHANDISE IMPORTED INTO THIS COLONY AND ITS DEPENDENCIES.

*Passed 2nd August, 1901.*

Be it enacted by the Governor, the Legislative Council and the House of Assembly, in Legislative Session convened, as follows :

1. This Act may be cited as the 'Revenue Act, 1901'.

2. In this Act, unless the context otherwise requires :

(a) The initials 'N. E. S.' represent and have the meaning of the words 'not elsewhere specified'.

(b) The initials 'N. O. P.' represent and have the meaning of the words 'not otherwise provided'.

(c) The expression 'gall.' or 'gallon' means an imperial-gall.

(d) The expression 'ton' means two thousand two hundred and forty pounds avoirdupois, except where otherwise defined.

(e) The letters 'cwt.' means one hundred and twelve pounds avoirdupois.

(f) The letters 'qtl.' means one hundred and twelve lbs. avoirdupois.

(g) The letter 'M.' means one thousand.

(h) The expression 'proof' or 'proof spirits', when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall, at a temperature of sixty degrees Fahrenheit, have a specific gravity of 0.9198 as compared with that of distilled water at the same temperature.

3. Subject to the provisions of this Act and to the requirements of 'The Customs Act, 1898', as amended by 62 and 63 Victoria, there shall be levied, collected and paid upon all goods enumerated in Schedule A. to this Act, the several rates of duties of Customs set forth and described in the said Schedule and set opposite to each item respectively or charged thereon as not enumerated, when such goods are imported into this Colony or taken out of warehouse for consumption therein.

4. Subject to the same provisions and to the further conditions contained in Schedule B. to this Act, all goods enumerated in the said Schedule B. may be imported into this Colony or may be taken out of warehouse for consumption in this Colony without the payment of any duties thereon.

5. The importation into this Colony of any goods enumerated, described or referred to in Schedule C. to this Act, is prohibited ; and any such goods imported shall thereby

become forfeited to the Crown, and shall be destroyed; and any person importing such prohibited goods, or causing them or permitting them to be imported, shall for each offence incur a penalty of two hundred dollars.

6. Subject to the provisions of this Act and to the requirements of 'The Customs' Act, 1898', as amended as aforesaid, there shall be levied, collected and paid upon all goods enumerated in Schedule D. to this Act, the several rates of excise duties set forth and described in the said schedule and set opposite to each item respectively.

7. There shall be allowed to any regular printer a drawback to the amount of any duties that may have been paid on any paper actually printed upon in this Colony, and of fifty per centum of any duties that may have been paid on any paper bags or sacks, labels of all kinds, shipping, price or other tags and tickets of all kinds actually printed upon in this Colony, upon the production of affidavit satisfactory to the Minister of Finance and Customs, setting forth the amount of duties which have been paid thereon, and that the said paper bags, sacks, labels, tags or tickets have been actually and *bona fide* printed upon in this Colony.

8. There shall be allowed a drawback upon biscuit manufactured in this Colony from flour imported, on which duty has been paid at the Customs, when such biscuit shall be exported from this Colony, at the rate of seventeen cents per hundred weight of such biscuit exported as aforesaid: Provided, that such drawback shall not be allowed on any quantity of biscuit so exported at any one time less than one hundred bags.

9. Upon all ale, porter, Bavarian or botanic beer manufactured in this Colony and upon which the duty herein imposed shall have been paid, and which may be exported from this Colony, there shall be paid to the exporter thereof the sum of five cents per gallon by way of drawback, upon conformity with the requisition of the Governor in Council.

10. There shall be a drawback allowed on all native berries and herrings, and other edible fish, excepting lobster and trout packed in cans per ninety-six pounds exported; if packed in one pound cans, twenty cents per ninety six pounds; if packed in two pound cans, fifteen cents per ninety-six pounds; if packed in larger cans, ten cents per ninety-six pounds.

11. There shall be a drawback allowed on all native edible fish when packed in one-quarters or one-halves (sardine cans) of thirty-five cents per one hundred pounds of fish exported.

12. It shall be lawful for the Governor in Council to remit the whole or any portion of the duties imposed by this Act upon port or other wines, currants or other articles imported direct from the country of production into this Colony, when it shall appear to him that the duty on codfish, the product of the Colony, imported into such country, has been or will be reciprocally reduced.

13. There shall be a drawback, equal to the amount of duty paid, allowed on packages for the export of cod-liver oil, under rules and regulations to be made by the Governor in Council.

14. There shall be a drawback upon unbleached calico, used in the manufacture of oiled clothes in this Colony by manufacturers thereof, equal to one-third of the duty paid on such unbleached calico, under rules and regulations to be made by the Governor in Council.

15. The duty herein provided to be levied upon fish is subject to the following proviso, namely: Provided that the Governor may, by proclamation published in the *Royal Gazette*, remit, as he may deem equitable, the whole or any part of the duty imposed on fish imported into this Colony from countries making such changes or reduction in their tariff with respect to fish, the produce of fish, or other articles exported from this Colony to such countries.

16. In addition to the duties herein provided to be raised, levied, collected and paid on goods, wares and merchandize imported into this Colony, there shall be raised, levied, collected and paid on the goods, wares and merchandize hereinafter in this section mentioned, imported into this Colony from countries the fishermen of which have the privilege of taking codfish upon all parts of the coast of Newfoundland and its dependencies, and in which countries duties are or hereafter shall be levied upon fish,

or the produce of the fisheries, exported from this Colony or its dependencies to such countries, the following rates, namely :

Flour, the barrel, seventy-five cents.  
 Pork, the barrel, seventy-five cents.  
 Butter, the one hundred pound, seventy-five cents.  
 Tobacco, the one hundred pounds, five dollars.  
 Kerosene oil, the gallon, five cents.  
 Corn Meal, the barrel, twenty-five cents.  
 Hay, the ton, five dollars.  
 Oats, the bushel, ten cents.  
 Potatoes, the bushel, twenty-five cents.  
 Turnips, the bushel, twenty-five cents.  
 Cabbages, the dozen heads, forty cents.  
 Unenumerated vegetables, thirty per cent, *ad val.*

Provided always that the Governor in Council may, at any time when it shall be made to appear to him to be for the interest of the Colony, by proclamation to be published in the *Royal Gazette*, suspend the operation of this clause for a limited period, the duration of such period to be stated in the said proclamation, in respect of all or any of the above-mentioned articles.

17. In case of any country now imposing, or which may hereafter impose, an import duty on herrings exported from this Colony and imported into such country in vessels belonging to this Colony, when such herring may be imported into such country in vessels belonging to the same free of duty, the Governor in Council may, by proclamation, impose an export duty equal to the amount of duty so imposed by such country aforesaid on herrings exported from this Colony in vessels belonging to such country where such import duty is imposed.

18. It shall be lawful for the Governor in Council to direct the appropriation of the duties collected upon coals in the port of St. John's to the use of the St. John's Municipal Council ; and the duties collected upon coals in the port of Carbonear for the use of the Water Company of Carbonear ; and the duties collected upon coals in the port of Placentia for the use of the Water Company of Placentia ; and the duties collected upon coals in the port of Harbour Grace for the following purposes, namely : Three hundred dollars to provide additional lights in the town of Harbour Grace, and the remainder to use of the Water Company.

19. At the time of entering neat cattle, subject to an *ad valorem* duty by this Act, the importer or known agent thereof shall, at the time of such entry, pay a sum as duty to be calculated upon the valuation of forty dollars for each of such cattle : Provided always, that within fourteen days after the landing of such cattle, the said importer, or his authorised agent, shall, if in the meantime the same shall have been realised by public auction or private sale, produce the original account sales thereof, and answer all such questions respecting the same as the Minister of Finance and Customs, Assistant Collector, or other proper officer, may propose, on oath (if required), which oath the said officers are hereby authorised to administer ; and if, upon such examination, it shall appear to either of the said officers that the amount of value exceeds that for which the said cattle were first entered, the importer, or known agent, shall then pay by post entry the amount of duty that may exceed the original duty paid on the same ; or, if the value should be less, the surplus duty received shall be returned, by certificate of over entry to the said importer or known agent ; and if such importer or known agent shall refuse to produce the account sales at the time aforesaid, or produce any other than the true account, or alter the same, or refuse to answer upon oath such questions as aforesaid, or to answer them truly, or to pay the additional duty (if any) due as aforesaid, such importer or known agent shall forfeit in any case aforesaid the sum of four hundred dollars ; and should the said cattle not have been disposed of within the time aforesaid, or appraised as hereinafter provided, the duty already paid upon them shall be detained, and deemed to be the true duty : Provided, also, that one day's notice, in writing, of the time of the intended sale at auction, as aforesaid, be given to the Minister of Finance and Customs, Assistant Collector, or other proper

officer : Provided, further, that when the said cattle so imported are not intended for immediate sale, the duty payable thereon shall be ascertained at the time of landing by appraisement at their value in the place where imported, one appraiser to be appointed by the Minister of Finance and Customs, Assistant Collector, or other proper officer, as aforesaid, and one by the importer or his authorised agent ; and should the said parties disagree, they shall appoint a third appraiser, the appraisement of any two of whom shall be final and binding ; and in the event of said importer or agent neglecting or refusing to appoint an appraiser at the time aforesaid, it shall be lawful for the Minister of Finance and Customs, Assistant Collector, or other proper officer, to appoint an appraiser to act for the said importer, by whose appraisement with the other or others aforesaid, the said importer or agent shall be bound, and shall also be subject to the same regulations and penalties as hereinbefore provided ; and the said importer or known agent shall, at the time of entry aforesaid, deposit with the Minister of Finance and Customs, Assistant Collector, or other proper officer aforesaid, the sum of six dollars to meet the expenses of appraisement aforesaid, any part of which said sum unexpended shall be returned to the said importer or known agent.

20. The duty imposed upon neat cattle by this Act shall be levied, collected and paid upon the proceeds of sale appearing upon the production of the original account sales, when such cattle shall have been sold, or upon the appraised value as hereinbefore provided, after deducting the amount of freight of any such cattle in either case.

21. Packages shall be subject to the following provisions :

(a) All bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages manufactured of tin, iron, lead, zinc, glass, or any other material capable of holding liquids, and all packages in which goods are commonly placed for home consumption, including cases, not otherwise provided for, in which bottled spirits, wines or malt, wines or malt liquors, or other liquids are contained, and every package being the first receptacle or covering inclosing goods for the purpose of sale, shall, in all cases, not otherwise provided for, in which they contain goods subject to an *ad val.* duty or a specific and *ad val.* duty, be charged with the same rate of *ad val.* duty as is to be levied and collected on the goods they contain except when the value of the packages is included in the value of such goods ;

(b) All such packages as aforesaid of the value of more than one dollar containing goods subject to a specific duty only, and not otherwise provided for, shall be charged with a duty of twenty per cent *ad val.*, except when the value of the packages is included in the value of such goods ;

(c) Packages not hereinbefore specified and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation, according to the general usage and custom of trade, shall be free of duty ;

(d) All such special packages or coverings as are of any use, or apparently designed for use other than in the importation of the goods they contain (not otherwise provided), excepting bags in which sugar, oats, flour, and similar articles are imported shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

(e) Packages (inside or outside) containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods.

22. All sums of money payable under this Act as duties, penalties or forfeitures, shall be deemed, and are hereby declared to be in dollars and cents, Newfoundland currency, and shall be received, taken and paid in such currency ; and all such duties shall be paid and received according to Imperial weights and measures by law established in this Colony ; and in all such cases where such duties are imposed, according to any specific quantity or value, the same shall apply in like proportion to any greater or less quantity or value.

23. The several duties imposed in Schedule A. of this Act shall be paid by the importers of such articles, respectively, and shall be collected and secured by means of, and under the regulations and penalties, and in the manner provided by this Act and

by any Act or Acts of the General Assembly of this Colony for collecting the revenue of this Colony and its dependencies.

24. In the case of all wines, spirits or alcoholic liquors subject to duty according to their relative strength of proof, such strength shall be ascertained either by means of Syke's hydrometer or of the specific gravity bottle, as the Minister of Finance and Customs directs; and in case such relative strength cannot be correctly ascertained by the direct use of the hydrometer or gravity bottle, it shall be ascertained by the distillation of a sample, and the subsequent test in like manner of the distillate.

25. All medicinal preparations, whether chemical or other, usually imported with the name of the manufacturer, shall have the true name of such manufacturer and the place where they are prepared, and the word 'alcoholic' or 'non-alcoholic', permanently and legibly affixed to each parcel by stamp, label or otherwise; and all medicinal preparations imported without such names and word so affixed may be forfeited.

26. Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into this Colony, or who, being in this Colony, has in his possession any bill heading or other paper appearing to be a heading or blank, capable of being filled up and used as an invoice and bearing any certificate purporting to show, or which may be used to show that the invoice which may be made from such bill heading or blank is correct or authentic, is guilty of an indictable offence and liable to a penalty of five hundred dollars, and to imprisonment for a term not exceeding twelve months, in the discretion of the Court, and the goods entered under any invoice made from any such bill heading or blank shall be forfeited.

27. With respect to goods imported for manufacturing purposes that are admissible for any specific purpose at a lower rate of duty than would otherwise be chargeable, or exempt from duty, the importer claiming such exemption from duty, or proportionate exemption from duty shall make and subscribe to the following affidavit or affirmation before the Collector of Customs at the port of entry, or before a Notary Public or a Commissioner for taking affidavits:

I, (name of importer), the undersigned importer of the (names of the goods or articles) mentioned in this entry, do solemnly (swear or affirm) that such (names of the goods or articles) are imported by me for the manufacture of (names of the goods to be manufactured), in my own factory, situated at (name of place) and that no portion of the same will be used for any purpose or disposed of until so manufactured.

28. Whenever the Governor in Council has reason to believe that with regard to any article of commerce there exists any trust, combination, association or agreement of any kind among manufacturers of such articles or dealers therein, to unduly enhance the price of such article, or in any other way to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor in Council may commission or empower any Judge of the Supreme Court to inquire in a summary way into and report to the Governor in Council whether such trust, combination, association or agreement exists.

2. The Judge may compel the attendance of witnesses, and examine them under oath, and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor in Council for the purposes of such inquiry.

3. If the Judge reports that such trust, combination, association or agreement exists, and if it appears to the Governor in Council that such disadvantage to the consumers is facilitated by the duties of customs imposed on a like article when imported, the Governor in Council shall place such article on the free list, or so reduce the duty on it as to give to the public the benefit of reasonable competition in such articles.

29. *Whereas* under clause forty-five of the contract between Robert G. Reid and the Government of the Colony for the operation of the Newfoundland Railway, as confirmed by the Newfoundland Railway Act, 1898, it is provided that "From the time when the Contractor shall satisfy the Government that he is able so to operate his coal mine or mines as to supply not less than 50,000 tons per annum of coal of good quality, and to continue to furnish such supply, the Government agree to procure the

imposition of a duty of not less than one dollar per ton upon all coal imported into this Colony," upon certain further conditions also set forth in the said clause :

*Be it therefore enacted* that at such time as the said Contractor shall satisfy the Governor in Council that he is able so to operate his said mine or mines as to furnish the said supply to the quantity so provided by the said contract, the Governor in Council shall issue his proclamation directing that the said duty of one dollar shall be imposed and collected upon all coal imported into this Colony, and thereupon such duty shall come into force and effect at and from the date prescribed in and by the said proclamation. It being, however, hereby declared and provided that this duty shall not be held to apply to anthracite or cannel coal, or to coal imported for actual use on board steamships, which shall be exempt from duty.

30. Whenever it shall be made to appear to the Governor in Council that it is desirable, for the purpose of promoting the importation of potatoes for seed, to abrogate or reduce the duty upon potatoes for such purpose, it shall be lawful for the Governor in Council, by order published in the *Royal Gazette*, to abrogate or reduce such duty.

31. Upon all coal supplied in St. John's to ships of war a rebate of fifty cents a ton shall be allowed to the supplier, upon the production to the Assistant Collector of the necessary evidence.

32. Upon the survey, by an authorized surveyor, of lumber imported into this Colony, for ascertaining the quantity therein upon which duty is to be collected, the surveyor shall furnish to the Custom House a certificate setting forth that he has surveyed a cargo of lumber imported in a certain ship, stating name and master and where from, and giving particulars of such survey, the number of feet, and the kind and description of the board, plank (dressed or undressed), timber, laths or shingles, as may constitute such cargo ; such certificate of survey must be delivered to the proper officer of Customs twenty-four hours after the landing of the cargo under a penalty of twenty dollars, to be collected in a summary manner upon complaint before a Justice of the Peace.

For every certificate of survey furnished by an authorized surveyor he shall be entitled to receive the sum of fifty cents.

33. On such articles of machinery, implements or materials as are necessary to the initiation and installation of any manufacture or industry in this Colony, or in connection therewith and used therein, there shall be levied and collected such less duties than the rate prescribed as the Governor in Council may from time to time fix by order in Council : Provided that such order may prescribe such conditions and regulations concerning the said importations as he may deem wise.

34. Upon oleomargarine, butterine, or similar substitutes for butter, and upon tobacco, imported into this Colony, being reported at the Custom House, and before being entered for consumption, the packages in which such article is contained shall be stamped or marked by a Customs' officer with the name of the article or with some distinguishing mark.

35. The importation of any such article for consumption before the package containing it is marked as aforesaid, is hereby prohibited, and any such goods so imported shall become forfeited to the Crown, and may be seized by a Customs' officer and sold, after stamping or marking, one-half the proceeds being paid to the informer and seizing officer, one moiety to each, the other half being paid to the consolidated revenue.

36. It shall be unlawful to manufacture oleomargarine, butterine, or a similar substitute for butter, or to manufacture tobacco except under the license of the Minister of Finance and Customs, who may grant such license upon application, without charge to the applicant.

37. Each factory of oleomargarine, butterine, and similar substitutes for butter, or of tobacco, shall be for the purposes hereafter stated, a bonded warehouse ; the products manufactured therein being, for the purpose hereafter set forth, under the control of the Minister of Finance and Customs and such officers as he may appoint, from the time of its production in the factory until the packages containing it have been duly stamped or marked, and the excise duty paid thereon.

38. It shall be unlawful for any person to take from such factory or from the part or parts under the control of the officer aforesaid, any product of the factory not con-

tained in packages marked or stamped by the Excise officer with the name of the article or with some other stamp or mark whereby the product of the factory may be distinguished, except by permission of the Minister of Finance and Customs.

39. The excise duty levied and collected upon oleomargarine, butterine, or similar compounds, and upon tobacco shall be paid in advance from time to time to the Minister of Finance and Customs, or such persons as he may appoint, before a permit shall be granted for the entry of such products for consumption; the excise duty so collected being from time to time paid into the consolidated revenue.

40. For any violation of the foregoing provisions relating to Excise, complaint may be made before a Stipendiary Magistrate or two Justices of the Peace, and the offender, upon conviction, shall be liable to a penalty not exceeding five hundred dollars, or in default of the payment thereof to imprisonment for a period not exceeding six months. If the person convicted be the holder of a license, or if it be proved that he was a party to the offence, his license shall be forfeited, and he shall thenceforth be incapable of procuring a license.

41. All articles and ingredients, except butter, imported into Bond for the use and to be used in the manufacture of tobacco and butterine, oleomargarine, or similar compounds, shall be admitted free of duty under regulations to be made by the Governor in Council.

42. 'The Revenue Act, 1898', and the Act 62 and 63 Victoria, Chapter 36, and the Act 63 Victoria, Session 2, Chapter 9, in amendment thereof, are hereby repealed, and shall be deemed to have been repealed on the first day of July, One thousand nine hundred and one: Provided always that all bonds given and payments made under the said Acts or any of them are hereby confirmed and declared valid and nothing herein contained shall be construed to affect the same.

43. This Act shall be held to have come into operation on the first day of July, One thousand nine hundred and one, at the hour of 9.30 a. m.

## IV.—ALTERATIONS IN CORN AND GRAIN DUTIES.

1. *General Customs Order No. 37, of June 18, 1902.*

Officers are informed for guidance that in pursuance of certain amendments in the Finance Bill agreed upon in the House of Commons on the 16th instant, the following alterations are to be made in the Schedule to General Order 19, 1902 :

(1) Part I.—The words ‘Locust Beans’ are to be deleted.

(2) Part I.—The words ‘Any Offals of the above mentioned articles’, are to be deleted, and the following words substituted therefor :

‘Any Offals which are feeding stuffs and are proved to the satisfaction of the Board not to contain more than fifty per cent of starch, the cwt. 1½d.’

(3) The first two lines in Part II are to be struck out and the following words substituted :

‘Flour and the Meal or Milled Products (other than Offals liable to the above-mentioned Duty of one penny halfpenny) of any of the articles mentioned in Part I of this Schedule.’

For convenience of reference a revised Schedule embracing these alterations is appended hereto.

The exemption from Duty on Locust Beans is to take effect from the date of receipt of this Order.

Following on the insertion of the words ‘or Milled Products’, Split Pease and Split Lentils are to be charged at the rate of Fivepence the cwt.

Special attention is directed to the definition of Offals which has been inserted after Part I. Pending further directions, such goods other than ordinary Brans, Husks, Shells or Dust, or as to which the officers have no doubt that they fall within the definition, should be sampled for analysis in every case ; immediate delivery being allowed, if desired, on deposit of Duty at the higher rate of Fivepence the cwt.

The question whether past accounts in respect of Locust Beans and Offals should be re-opened will be hereafter decided (\*).

## JERSEY AND GUERNSEY.

1ST SUPPLEMENT TO No. 91, JULY 1902

### I.—PROHIBITION TO IMPORT INTO JERSEY, ANIMALS, ANIMAL WASTES AND OTHER PRODUCTS.

By virtue of different resolutions adopted by the ‘*Harbour and Highway Committee*’, duly confirmed by the States, importation into Jersey of animals and articles hereinafter mentioned, is prohibited :

1. Native cattle returning from having been exhibited in England. (*Act dated 5th, and published on the 30th September, 1891.*)
2. Cattle arriving from Norway, Sweden, Spain, Portugal and Iceland. (*Act dated 2nd, and published on the 4th April, 1892.*)
3. Neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France. (*Act dated October 1st, and published on the 30th November, 1892.*)
4. Pork, arriving from France. (*Act dated the 20th, and published on the 22nd of January, 1894.*)
5. Swine, arriving from Ireland. (*Act dated the 2nd, and published on the 11th March, 1895.*)
6. Hay and straw, and also dogs arriving from all parts of France. (*Act dated September 3, 1900.*)
7. Dogs of Irish origin. (*Act of June 15, 1901.*)
8. Hay, straw and other forage, neat cattle, sheep, swine and goats or other animals, green hides, tallow, unboiled, and horns and hoofs of dead animals, proceeding from Guernsey or brought into Jersey by any vessel having called at Guernsey. (*Act of April 23, 1902.*)

NOTE.—The provisional prohibition in force by virtue of an Act of said Committee, dated September 3, 1900, confirmed by an Act of the States, dated October 22, 1900, respecting hay, and straw shall extend to forage used in packing or shipping eggs, poultry or any other goods proceeding from France. Live poultry imported from France shall immediately after landing be removed to the foreign Animals Wharf under the supervision of the Inspector and remain in his custody at the expense of the owners or consignees, until killed for consumption.—The prohibition enacted by Act of said Committee, dated October 1, 1892, confirmed by an Act of the States, dated November 30, 1892, in reference to the introduction into Jersey of neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France, shall extend to horses arriving from said country. (*Act of April 23, 1902.*)

9. Heads, tongues, and garbage of neat cattle and sheep, proceeding from France or the Island of Guernsey, or brought into Jersey by any vessel having called in France or at Guernsey. (*Act dated and published April 26, 1902.*)

## IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Sontum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Coeli, 75 Marché St. Jacques, Antwerp, Belgium.

### (A.)—AUSTRALASIA.

#### REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

SYDNEY, N.S.W., July 15, 1902.

The Honourable  
The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—Last week there were rains in South Australia, Victoria and the South Eastern portion of New South Wales. These have materially improved the outlook for dairy products and of the harvest. As a result the produce markets are quieter and there has been a slight decline in prices of dairy products, and some other articles, from the prices quoted in a circular letter sent to Canadian Boards of Trade in May last. The drought is by no means broken up and the larger portion of New South Wales and Queensland are yet without useful rains. It is impossible to foresee what the possibilities of trade will be from month to month in foodstuffs. The business must be done by cable and all that can be done here is to establish the lines of communication so that

advantage can be taken of circumstances as they may occur. There are fair prospects that this will be done.

I find that the prices of certain articles as given in the circular referred to have led some Canadian exporters to believe that these prices could be obtained upon articles at ship's side, Sydney, overlooking the expenses between the ship and the retail trade, and in some instances the duties which were also given in the letter. These are serious items. They include wharfage, cartage to and from store, charges for passing customs, commission and often storage, and generally the profit of a wholesale firm also. The bulk of the imports pass through three hands and every item, at least, through two before it reaches the consumer. These items will amount to from ten to thirty per cent of the selling price. Then until its reputation is established on the market a new article, as a rule, will not bring the prevailing price. As it becomes known and appreciated it will bring its full value.

Some samples of oats and barley have been sent here but they are inferior to the Australian article and it is believed do not represent a fair sample of the last Canadian harvest. The recipients have refrained from offering them on the market and sent for new samples.

The sale of Canadian hard wheat flours is making progress beyond New South Wales and Queensland, but there is a considerable trade in inferior grades in the South Sea Islands which as yet Canada has not touched. This trade is unaffected by the Australian duties. I had hoped to be able to visit a few of the chief of these markets but the prevalence of plague in Sydney necessitating a quarantine of some time at Island ports has made it unadvisable up to the present. Should the opportunity offer I think it could profitably be undertaken.

TRADE RETURNS.

The details of the Australasian trade for 1901 have not yet been issued but the totals have been given out. The figures for 1899, 1900 and 1901 are :—

|                         | IMPORTS.    |             |             |

| Total Australasia ..... | £72,178,153 | £79,763,477 | £79,855,017 |

The Australian imports showed some shrinkage last year, as the loading up had been mainly accomplished in 1900 but there was a large accession of imports to New Zealand. The reverse, however, was the case with regard to the exports, as the Commonwealth exports expanded, while those of New Zealand showed contraction :—

| Australasia.....     | £88,845,952 | £85,906,619 | £87,571,224 |

These figures include the inter-state trade, which shortly will disappear from the returns.

The Statistician in the office of the Government of Victoria has issued particulars of the harvests of Australia for the last two years, which will be of interest to Canadian farmers as well as to the millers. The wheat production was :—

Returns for 1901-2 are not available, but will not materially affect the result.

The last Australasian crop was, therefore, less than that of the previous year by 12,300,000 bushels, or 22·4 per cent. The net exports of wheat and flour in 1901, placed at 27,071,000 bushels of wheat, or its equivalent, out of a crop of 54,880,000 bushels. It left only 27,810,000 bushels for food and seed. Six million bushels were required for seed, leaving, say, 21,500,000 bushels for home consumption or about 4 $\frac{3}{4}$  bushels per head. The common estimate of the consumption of wheat in Australia has been about five and a half bushels, so that there should be a considerable deficiency this year on the

basis of these figures and of the exports of this year. The crop last year was the worst since 1897-8, as shown below :—

|                | Australia. | N. Zealand. | Together.  | Average per<br>acre. |

| 1900-1.....    | 48,353,402 | 6,537,154   | 54,880,556 | 9·34                 |
| 1901-2.....    | 38,503,499 | 4,086,550   | 42,590,049 | 8·09                 |

The year 1900-1 was the record crop for Australia and that of last year was not much below the average. The two crops will materially aid the farmer to tide over this year of bad prospects.

As will be seen the crop of New Zealand was exceedingly small, having been injured by too much rain. The actual yields of grain were :—Wheat, 24·76 bushels an acre ; oats, 37·06 ; barley, 32. The quantity available on February 28 was 5,373,848 bushels, and the estimated requirements for the year are 5,410,000, leaving a deficit of 36,152 bushels. A large quantity of wheat is unfit for milling owing to the late rains. Owing to there being a direct line of steamers from San Francisco the deficiency so far has been supplied from the United States. It is hoped that some Manitoba flour will be shipped next month.

The wool year of Australia closed on June 30. The returns for the last year show exports of 1901-2 to have been 1,659,392 bales, being an increase of 46,697 over those of the previous year. 934,660 bales were sold in Australia, the price averaging £9-6-4 per bale as against £8-11-10 realized for the wool of the year before. This is an improvement but is very much below the prices received the two previous years, which were :—

|                |     |      |     |           |
|----------------|-----|------|-----|-----------|
| 1899-1900..... | £16 | 14s. | 8d. | per bale. |
| 1900-1901..... | 10  | 18s. | 6d. | "         |

The wool shipped unsold in 1899-1900 realized less than the average obtained in Australia, whereas the wool so exported last year is likely to realize more than the average obtained here.

The trade of Sydney is now showing the effects of the increased drought. The trade for the first six months of this and the previous years was :—

|           | Imports.    | Exports.   |
|-----------|-------------|------------|
| 1901..... | £11,615,452 | £8,656,265 |
| 1902..... | 9,867,567   | 8,223,965  |

A large share of the decrease in exports was in that of gold, other articles increased by £110,382. This increase was, however, not in domestic produce, but in the produce of other States re-exported. The whole of the decrease and more is in articles imported from abroad as the following list will show :—

## IMPORTS.—JANUARY 1 TO JULY 5.

|                           |            |                   |

| Soft goods.....           | £2,019,192 | Decrease £554,178 |
| Beer and spirits.....     | 317,964    | " 82,139          |
| Boots and shoes.....      | 140,262    | " 160,978         |
| Furniture.....            | 203,715    | " 88,987          |
| Hardware.....             | 728,580    | " 98,809          |
| Jewellery.....            | 148,294    | " 98,242          |
| Machinery.....            | 323,951    | " 82,594          |
| Oilmen's stores.....      | 314,755    | " 192,536         |
| Paints and oils.....      | 160,142    | " 187,993         |

| Timber.....               | 223,360    | " 78,429          |
|                           | £4,875,304 | £1,738,360        |

These imports, so far, this year, show a decrease of 26·3 per cent, which is exceptionally heavy. To some extent the deficiency has been made from stocks carried over from last year, but nevertheless much of the decline is of the three last months, an indication of the loss of purchasing power by the people. This is shown more clearly by the fact that the re-export of merchandise in the six months increased by £451,524, mainly of imported goods. The decrease in imports sold in New South Wales will total nearly two million pounds. This is a heavy loss for the trade with which Canada has mainly had to do. As a consequence there have been a number of small failures, but none of any important importing houses and of none that are interested in Canadian trade.

## LIVE STOCK.

The hope has been expressed in previous reports that the time would come when Canadian breeders would here find a market for high bred stock. I had hoped that some Australian expert would be able to visit Canada during the autumn Fairs and give an opinion of the prospects. At present such a trade is out of the question. The only animals that are imported from America are merino sheep from the United States, a breed that Canada does not excel in. This trade has been going on for some years and the Vermont merinos have secured a high reputation. The annual Sydney sheep sales took place last month, when a number of Vermonts were offered. The drought affected the sales seriously so that the highest prices realized for the best local sheep were only half those obtained last year. The highest prices realized for Vermonts were \$2,103 for one ram; \$1,333 for a second, and \$1,026 for a third. The ewes brought a much lower figure, the highest price being \$360. The average price of one lot of 51 sheep was, rams \$230, and ewes \$128 each. Another lot of 15 brought,—rams \$437; ewes \$191 each. These prices were deemed satisfactory. Australia will pay a high price for first-class stock. Canada just now cannot find a market for the long and medium wool sheep, in which she excels, as these animals do not bring fancy prices here, but Australia is going to pay more attention to other animals: horses, cattle and pigs. There are a number of difficulties in the way of an immediate trade, but the prospects are worthy the attention of Canadian breeders, and if a competent judge of live stock were visiting Australia it would be advisable that the Association should arrange with him to give some attention to the matter.

## TIMBER.

I have again had applications for oak staves for wine casks. Nothing so far has been done in direct shipments from Canada. The requirements have been, so far, too small to warrant full car lots being sent through, and purchases for Australia are, therefore, made in New York. There are considerable shipments each month from New York of pine, oak and basswood for Australia and New Zealand, which can be supplied direct by Canada upon the establishment of direct ships. A vessel recently brought a quarter of a million feet.

## SADDLES.

Some of the saddles supplied to the Canadian contingents in South Africa attracted the attention of Australian troopers, and it is believed in spite of the duty of 20 per cent a trade can be done in them. Correspondence has been initiated which it is hoped may accomplish this.

## COMBINATIONS.

I am advised that efforts are being made to unite manufacturers in sending out a traveller on joint account. It is unadvisable to load an agent with too many lines as some are pretty certain to be neglected, but on the other hand a number of failures in this trade are due to limiting a traveller to a line of trade in which it is not possible to secure sufficient business to pay expenses. It is sometimes, advisable that manufacturers of the same class of goods should join to send out a man in their common interest. It is a mistake to sell a line to too many firms. The end is pretty sure to be cutting prices until there is no profit and the trade then give up handling the line. A traveller with the goods of three or even four houses could limit the sale of the goods of a manufacturer to a good firm in each city and a second line to another firm. In this way if the articles were suitable then the sale would be pushed and the trade continued. The sales of the three or four firms would cover the expense account, which in Australia is heavy.

I have the honour to be,  
Your obedient servant,

J. S. LARKE.

## (B.)—INQUIRIES RELATING TO CANADIAN TRADE.

Since the publication of the last monthly report, there have been received at this department from the High Commissioner for Canada, London, England, and the Curator, Canadian section, Imperial Institute, London, England, the following inquiries relating to Canadian trade. The names of the firms making these inquiries, together with their addresses, can be obtained from this department, or from the office through which the inquiry was received.

**Inquiries from the High Commissioner for Canada.**

## CANADIAN SHIPPERS OF WOOD FLOUR.

1. Inquiry is made for Canadian shippers of wood flour by a firm who are needing a considerable quantity. (Reference No. 57).

## PRINCIPAL OILCAKE MILLS, (CANADA).

2. A London firm have asked to be placed in communication with some of the principal oilcake mills in Canada. (Reference No. 57.)

## AGENCY FOR WOOD PULP, (LONDON, ENG.)

3. A firm in a good position to undertake the agency in London of a large wood pulp mill in Canada desire to correspond with an important concern not already represented. (Reference No. 57).

## EXPORTERS OF CANADIAN SPRUCE AND PINE LUMBER, &amp;c.

4. A Welsh importer is desirous of obtaining f.o.b. prices at Canadian ports and c.i.f. prices Bristol or Liverpool for Canadian spruce and pine lumber, mouldings, &c., also for oils and greases in barrels or drums. He is also prepared to quote for high grade Portland cement for export. (Reference No. 57).

## EXPORTERS OF LABRADOR COD.

5. An Italian house ask to be referred to a leading Canadian exporter of Labrador cod. (Reference No. 57).

## CANADIAN IMPORTERS OF AGRICULTURAL TOOLS, STEELS FILES, &amp;c.

6. An English firm manufacturing agricultural tools, steel files, &c., make inquiry respecting the opening in Canada for their goods. (Reference No. 57).

## AGENCY FOR CANADIAN PIG IRON, STEEL RAILS. WOOD PULP, &amp;c., (ENGLAND).

7. A Canadian firm of engineers with a branch in England are open to take up the agency for Canadian manufacturers of pig iron, steel rails, billets, iron and other ores, wood pulp, &c. (Reference No. 57).

## AGENCY FOR GROCERIES, SMALL-WARE LINES, (CANADA).

8. A young Canadian now on a visit to Europe desires to get into touch with some English firms in the grocery and small-ware line who require such an agency in the Dominion as he can offer on his return. (Reference No. 57).

## IMPORTERS OF NECKWEAR SILK.

9. Inquiry is made for English firms selling neckwear silks for manufacturing by a Canadian neckwear house. (Reference No. 57).

## (C).—AUSTRALASIAN AND CANADIAN DAIRY PRODUCE REVIEW.

## SEASON 1901-1902.

The attention of the Producers and Exporters of Dairy Produce throughout Canada is directed to the following extracts taken from Weddel & Co.'s Australasian Dairy Produce Review upon the Imports of Butter and Cheese into Britain during the season 1901-1902.

The most gratifying feature of the Australasian Butter Season which closed at the end of April was the establishment of an absolute record for high prices. On the London market "Choicest" grade quotations averaged for the season 109 6 per cwt., thus excelling the previous year which held the record at 108/5. Unfortunately, against the record of high prices is to be set a season of great diminution in supplies, which totalled only 14,976 tons against 22,545 tons for the season 1900-01. This shortage is due solely to the falling off in the Australian import. The season in the Commonwealth was exceptionally droughty, and the amount of butter received was only 50 per cent. of that imported during the previous season. The first vessel carrying Australian butter did not arrive in London until 26th October, against the 18th August of the preceding year, and the last vessel of the season reached London 1st March, while the year before it was not until 14th May that the final shipment arrived. Thus the Australian season, 1901-02, consisted of only 126 days. Its immediate predecessor was a long season, and lasted for 269 days. The New Zealand season, which is always about a month later than the Australian, was slightly short of its normal length, commencing with the first arrival on 18th November, and closing with the receipt of the final shipment on 23rd May, which shows a season of 186 days, being thus one-third longer than the Australian. The total amount of butter received during the past season from Australia was only 7,669 tons as against 15,293 tons the season before. New Zealand arrivals amounted to 7,307 tons, or only 362 tons less than those from Australia. Thus the two branches of the Australasian butter trade contributed about equal amounts to the British market. The nearest approach to equality previously attained was in the season 1897-98, when New Zealand receipts were 4,187 tons below those from Australia. In the season 1900-01, Australia sent 8,042 tons more than New Zealand, an excess greater than the total Australian receipts during the past season.

How seriously the drought in Australia and the increasing requirements in South Africa have affected the imports of butter from the Commonwealth for the past three years, is demonstrated by the fact that Australian supplies to British markets for that period have been 17,208 tons, 15,293 tons, and 7,669 tons respectively. New Zealand, although free from drought, has been called upon during the past two seasons to divert considerable amounts of butter to Australia and South Africa, and consequently the New Zealand imports into the mother country have not exhibited the expansion of former years. The exact amounts received during each of the past three seasons were

7,465 tons, 7,252 tons, and 7,307 tons respectively. The following table shows the imports of butter from the various Colonies for each of the last eight Australasian seasons.

As the Dominion of Canada lies in the same northern latitude as the United Kingdom, the Canadian butter season coincides with that of the mother country. So far as the bulk of export business is concerned, the Canadian season commences in May and ends in December, although a dwindling amount is received month by month from January to April. From May to December last the imports of butter from Canada totalled 10,718 tons, and from January to April 413 tons, making a total receipt for the year ended 30th April, 1902, of 11,131 tons. For the previous year the corresponding import from May to December was 6,822 tons; and from January to April, 46 tons; the annual import totalling 6,868 tons.

*Prices.*—It is a matter for congratulation that the fluctuation of prices has been remarkably small, the extreme range reaching 14s. per cwt. The highest price for "Choicest" grade was obtained in the first week in November, when 120s. per cwt. was secured for special brands out of the first Australian arrival. The lowest price was 106s., which occurred in December, and in January, and again in April. This is also a record, as in every season, save the last, values have in certain weeks been even below 100s.

The average price per cwt. in London for "Choicest" Canadian salt butter for each of the ten months ended April last, was May 94s., June 100s., July 99s. 6d., Aug. 104s. 10d., Sept. 109s., Oct. 112s. 6d., Nov. 112s. 10d., Dec. 106s., Jan. 104s., Feb. 104s., March (no supplies), April (no supplies). The average for the eight months, May to December was 104s. 10d., and for Jan. and Feb. 104s.

## QUALITY OF BUTTER.

The best friends of the Australian Dairy Produce trade cannot but regret that the steady improvement in the quality of butter, which Australia exhibited regularly until last year, has not only ceased, but on the whole has actually receded. It is true there are certain factories and a limited number of brands which are equal in quality to anything formerly received, but the bulk of the butter is inferior to what it was only two years ago. The reason of this may be attributed in some degree to the continued droughty conditions that have been so disastrous to agriculture generally in Australia; but the main reason for deterioration in quality is the increasing use of the private separator. In a hot climate like Australia, the result of farmers separating their own cream and delivering it to the factory at irregular intervals is certain ruin to the manufacture of perfect butter. It is contrary to common sense and opposed to every scientific method to expect a vat of cream which contains cream of three or four different ages, all blended together, to produce as good butter as a vat which contains cream all of one age. To

mix ripe, over-ripe, and doubly over-ripe cream together, as results from the use of private separators, and to expect that it will produce as good butter as only ripe cream, is to show utter ignorance of those principles of fermentation on which the flavour and keeping qualities of all butter absolutely depend. The machinery agents in Australia who have pushed private separators on the farmers have done an incalculable injury to Australian butter, and, unless this policy is immediately reversed, the quality of Australian butter is doomed to occupy a secondary position in British markets.

In New Zealand there is not any noticeable deterioration as there is in Australia, but the taint of the private separator is too frequently making itself known even there, and the sooner this baneful influence is abolished the better. New Zealand butter has now gained a very high character, and during the past season it may be safely asserted that the bulk of it was superior to Australian, and if this present rate of progress should continue it will soon sell at higher prices than Australian. There can be no doubt that the excellent system of grading adopted by New Zealand, and the lower temperature at which the butter is carried in transit to the United Kingdom, have done something to bring about this improvement; but the fact that the bulk of the milk in New Zealand is daily delivered direct into the factory, and each day's cream being thus kept under the control of the factory manager, renders it possible to make a higher class article than when "collected" cream from the farmer's private separator is received at odd times during the week.

Canadian butter, notwithstanding the small size of the factories, and the existence of too few co-operative companies, is making steady and fairly satisfactory progress. The main defects about Canadian is the want of "finish" to the butter when packed in the export box of 56 lbs., and the wretchedly inferior imitation vegetable parchment paper which lines the boxes and enfolds the butter. There are few shippers who use as good vegetable parchment paper as the Australians and the New Zealanders; but unfortunately these few are exceptional. The difference in cost between the very best parchment paper and the inferior imitation rubbish used in Canada is less than one half-penny per 56 lbs. box of butter, and the attempt to save one half-penny over an article worth 50s. to 55s. is a good illustration of spoiling the ship for a ha'porth of tar! Largely owing to this inferior quality of paper, Canadian butter becomes mouldy on the surface, and shillings per cwt. are lost in consequence. Although some dip their paper in a formaline solution, yet it would be far better to use only the very best paper as is done in Australia and New Zealand. If the Dominion Government Commissioner were to collect specimens of the parchment paper used in Canada and in Australia and dip them in sterilized butter, and then place them in an incubator the crop of mould growing on the Canadian paper would demonstrate the inferior quality which Canadians are content to use for their butter. Another point that deserves attention in Canadian butter is the temperature at which it is carried from Montreal to the United Kingdom. At present this temperature is too high, and 25° Fahr. should be the maximum. New Zealand butter is all carried below 20° Fahr.

#### QUALITY AND PRICE OF CHEESE.

A great improvement was made last year in the carriage of Canadian cheese across the Atlantic. Cool chambers were introduced on some of the lines of steamers, and, although an increased freight was incurred, there is no doubt whatever that it was a genuine economical change, for the much better condition in which the cheese arrived during the hot weather resulted in the cheese obtaining a higher proportionate price. This system has been further extended this season, and soon all Canadian cheese will arrive in a greatly improved condition as compared with that which prevailed up to two years ago. In New Zealand cheese too there has been an improvement in quality, mainly in its keeping properties, although there is room yet for considerable progress in this connection.

The following table shows the average monthly prices of Canadian cheese on the London market since 1895. Prices of New Zealand cheese run parallel with those of Canadian, but at about 1s. and 2s. per cwt. lower.

SHIPPING ARRANGEMENTS.

Satisfactory progress on the whole can be reported as to the arrangements for shipping butter and cheese from Australasia, especially those regarding the shipments of New Zealand dairy produce which is now shipped from only two ports in the Colony instead of four or more as formerly. This has secured a more rapid discharge of the vessels on their arrival in London, but, unfortunately, the discharge from the vessel does not correlate with the receipt of the goods by the consignees. The old and unsatisfactory method of sorting on the quay or in the sheds at the docks still continues with both lines of New Zealand steamers and with the P. & O. line from Australia. The Orient-Pacific line deserves much praise for the very great improvement they have introduced in the discharge of Australian butter from their vessels, and although there are greater difficulties in the matter of discharging New Zealand dairy produce, there is nothing to prevent the P. & O. Co. falling into line next season with the Orient-Pacific Co. Instead of discharging the goods on to the quay or into the sheds at the docks, and sorting them out there for despatch to the various consignees, the Orient-Pacific Co. "tally" the whole cargo into barges which immediately proceed up river to Cotton's Wharf, where 80 per cent of the goods are required, and the sorting and despatch proceeds from there. Every consignee admits that he now gets the bulk of his goods by this system at least one day sooner than formerly, and what is of more importance, there are no remnants of brands to wait for, often for one, two, or three weeks as formerly.

SALE OF BUTTER REGULATIONS.

Since the last publication of this Review the Departmental Committee, appointed by the Local Government Board, to inquire into the use of preservatives and colouring matter in the preservation and colouring of food, has issued its report. The Committee recommends that no preservative or colouring matter whatever shall be allowed in milk, that the only preservative for the use of cream shall be boracic acid, or mixtures of boracic acid and borax, the amount not to exceed one quarter of one per cent (0.25), and the only preservative permitted to be used in butter or margarine shall be boracic acid or mixtures of boracic acid and borax, the amount not to exceed a half of one per

cent (0·50). This recommendation has been adopted by the Board of Agriculture and has now become the law on the matter.

In July, 1901, the Department of Agriculture, under the authority of the Sale of Food and Drugs Act, 1899, also appointed a Departmental Committee "for determining what deficiency in any of the normal constituents of butter, or what addition of extraneous matter, or proportion of water in any sample of butter shall, for the purpose of the Sale of Food and Drugs Acts, raise a presumption until the contrary is proved that the butter is not genuine." On the 24th January, 1902, after taking much evidence, the committee issued an interim report containing the following unanimous recommendation on one part of their inquiry, viz., the proportion of water to be allowed in butter: "We, therefore, recommend the adoption of a limit of 16 per cent for the proportion of water in butter to be fixed by a regulation under section 4 of the Sale of Food and Drugs Act, 1899, and we make this recommendation on the assumption that butter containing a larger percentage of water than 16 per cent. will escape the operation of this limit provided that a sufficient disclosure is made to the purchaser."

This recommendation of the committee seemed to most people a practical and reasonable solution of the difficulty, as it distinctly made it a fraud to sell butter containing more than 16 per cent of water, unless the amount of water contained in the butter was specifically made known to the purchaser at the time of sale. The report, however, met with strong opposition from the pastoral interests and a very large number of provision dealers who had agitated for the appointment of the committee. There is very grave reason to believe that the real object the agitators had in view was the prevention of the sale of an article known as "milk-blended-butter." So great was the pressure brought to bear upon the Department of Agriculture that Mr. Hanbury, the President, over-rode the unanimous recommendation of his committee, and issued a regulation for the sale of butter, omitting the "sufficient disclosure" qualification and fixing 16 per cent as the absolute limit for Great Britain, which came into operation on 15th May last. Even this regulation was not sufficiently strong for the agitators, and to meet their views the President has recently introduced a Bill into the House of Commons enacting that butter to which any substance has been added whereby the amount of water in the butter is increased shall be sold only under the name of "Butterine."

The objects of the promoters of this new legislation is to stop the sale of "milk-blended butter" on the ground that its sale is a fraud. Although the firm which sells it has been prosecuted all over the country on this same ground, and magistrates have condemned them to fines, yet, on appeal to the higher courts, the judges have emphatically decided it is not a fraud, and the magistrates' decisions have been quashed. The proposed legislation is contrary to the spirit of the British Constitution, for it is intended by an objectionable name—"Butterine"—to stop the sale of an article which, in itself, is a mixture of two other articles, both everywhere known as excellent foods and in no way whatever injurious to health.

The spirit of British law is deterrent, and follows the principle of preventing fraud by severity of punishment, and not by suppression of the manufacture of pure and wholesome commodities. If the sale of "milk-blended butter" is a fraud then it should be stopped by imposing such heavy fines, or actual imprisonment of the offenders, as would be effectual. Another obvious result of Mr. Hanbury's Bill will be to enable Margarine to be sold as butterine, and thus sellers will escape the irksome Margarine regulations which now control its sale. To allege, as the supporters of Mr. Hanbury do, that milk added to butter increases its water contents may probably be analytically correct, but it is no more commercially true than alleging that when anyone sells 100 gallons of milk he sells 88 gallons of water, and only 12 gallons of solids.

The Australasian Agents General, when reporting to their respective governments on this new development in the butter trade, do not appear to have realized that the sale of "milk-blended butter" would in all probability be beneficial to Australasian shippers. Colonial butter, owing to its being the driest butter on the market, is the most suitable for blending purposes, and thus a large additional demand has arisen for it. Were the sale of milk-blended butter to become general the Colonies would have

great difficulty in supplying a sufficient amount to be consumed in the ordinary way in addition to satisfying the demand for "milk-blended butter." The public have found "milk-blended butter" so attractive that already one firm sells nearly 60 tons a week and there is no reason why in this country ten, twenty, or more firms should not each sell 50 or 60 tons a week of this butter, and an additional demand for 500 or 1,000 tons of Colonial butter per week is surely something to be encouraged. If the sale of this butter were fraudulent it would be another matter, but since the judges have emphatically ruled that it is not, the Agents General and their advisers appear to have acted injudiciously in aiding and abetting legislation for the suppression of the sale of a perfectly pure and nutritious article, the extended use of which would be so palpably beneficial to the Colonies.

### IMPORTS.

#### BUTTER.

The increase in the imports of butter into the United Kingdom goes steadily on. Sometimes this increase is large, as in the year ended 30th June last, when it amounted to 12,448 tons, or an average increase of more than 1,000 tons a month. The following statement of the increase for each of the past ten years demonstrates the capacity of British markets for absorbing the surplus of butter produced in other countries.

|                  |   |       |       |        |        |        |       |       |       |       |        |

The increase in the Imports of the year just closed is thus seen to be the greatest in the decade. In the year 1892 the total imports were 108,119 tons, and now they have reached 187,907 tons, which shows a growth of 79,988 tons in ten years.

The country which shows the greatest increase for the year just ended is Russia, with an addition of 9,392 tons, nearly altogether from Siberia. Denmark stands next with 7,093 tons, and then comes Canada with 3,959 tons. France follows with 1,482 tons, Argentina with 1,477 tons, and Holland with 960 tons. No other country sent an increased quantity except Norway, and that was only 126 tons. Among the countries showing a deficiency compared with last year Australia takes the lead with a reduction of 8,107 tons, the United States follows with 1,706 tons, Sweden with 1,093 tons, New Zealand with 617 tons, Belgium with 222 tons, and Germany with 47 tons. Various other countries, whose total imports this year were only 131 tons, contributed to our supply 239 tons less than in the previous period. It is interesting to note that for the year ended June 30, 1902, the imports of New Zealand butter for the first time exceeded those from Australia, the actual receipts being 8,295 tons and 7,449 tons respectively.

If the sources of our butter imports be divided into Colonial and Foreign, it will be found that only once in the last decade have the Foreign imports been less than in the year before, and that took place in 1900 when the deficit was 8,236 tons, in the following year an increase of 9,502 tons occurred, and this year the Foreign supply shows the enormous increase of 17,213 tons. Colonial imports in the last decade have four times been below the previous year, and on three of these occasions the deficiency was due to Australia. The total Colonial supply rose from 9,000 tons in 1893 to its climax of 37,500 tons in 1900, since then it has declined to 27,000 tons in the present year. This feature of the Colonial and Foreign supplies of butter is illustrated in the chart accompanying this Review, and Table IV. below records the various sources from which butter is drawn for consumption in the United Kingdom.

## CHEESE.

From every country which supplies Cheese to British markets, with the exception of France, the imports last year show a deficit, the total falling off being 5,786 tons. In contrast to the supplies of butter, which are principally from foreign sources, those of cheese are mainly from colonial, the foreign imports last year being only 46,245 tons, while colonial were 79,007 tons, Canada alone sending 76,297 tons, and New Zealand 2,710 tons of this amount. Just as Danish supplies dominate the market for imported butter, Canadian holds the sway for imported chesse. The progress made by the Colonies in supplying us with cheese is most gratifying, for the increase in the past ten years is about 25,000 tons, while foreign supplies have decreased by about 1,000 tons a year. The home supplies are virtually stationary, the average make for the last five years being about 143,000 tons, while the total imports average about 126,500 tons. The following Table demonstrates not only how Canada now supplies the bulk of imported cheese but also the solid and steady increase she has made. In 1892 the import from Canada was 44,400 tons, this year it was 76,300, or an average increase of over 3,000 tons a year.

## PROSPECTS FOR NEXT SEASON.

*Butter.*—Reports by letter and cable from Australia all tend to show that the winter is extremely severe, the cattle poor, the drought the worst for many years, and a very late opening of the season is everywhere anticipated. The return of the civil population to South Africa will cause a larger demand than ever from there for Australian butter, and the high price of cattle in the Commonwealth tends to reduce the milking herds, because beef production pays better than butter making: therefore, it looks as if the import of butter from Australia next season is scarcely likely to show an increase. New Zealand butter is expected to show a continued increase, although the high price of cheese this season may tempt a larger production of this article next year. Canadian supplies it is anticipated will be slightly larger than last year. The high price of butter in the United States has prevented any large export from there and will probably continue to restrict supplies.

Although the grass and root crops all over the Continent of Europe and the British Isles are just now exceptionally good, the scarcity of fodder last winter greatly reduced the milking herds, and only a partial stocking up can be made this winter. The hay crop all over Europe, though an average, has been on the whole badly gathered in, much being damaged by the heavy rains.

The outlook for the coming winter, therefore, does not indicate any great increase in the imports on last year, yet, at the same time, it seems somewhat doubtful whether the abnormally high prices of last winter will be maintained during the ensuing season.

*Cheese.*—Owing to the better pastures this year and the inducement given by the high prices of last season, it is certain that the make of home cheese will be considerably augmented, and as the foreign and colonial makes will probably be equal to last year, prices next winter are not expected to be so high as during the winter of 1901-2.

## (D.)—BICYCLE TRADE OF NEW ZEALAND.

The importation of bicycles and bicycle materials into New Zealand, during the calendar years 1897 to 1901, presents some very interesting features. During the year 1897 the imports were 11,497 bicycles, valued at \$617,653, while in 1901 the imports were 8,014, valued at \$263,078, showing a falling off in the number of bicycles imported from 1897 to 1901 of 3,483, or about 30 per cent; while the decrease in value for the same period was \$354,575, or about 57 per cent. In the year 1897 the average value of each bicycle imported was \$53.72 and in 1901, \$32.83, a decrease of \$20.89 on each bicycle. The importation of bicycle materials does not show such a change, however, the value of the imports in 1901 was \$346,375 as against \$312,177 in 1897, an increase of \$34,198. The proportion of bicycle materials to bicycles shows a great change, the value of the imports of the former, in the year 1897, being little more than half the value of the latter, the figures being \$312,177 to \$617,653, whereas in the year 1901 the value of the imports of bicycle materials was \$346,375 to \$263,078 for bicycles. From the above it is evident that the locally, or put together, machine is gradually displacing the complete machine.

(E.)—BRITISH AND COLONIAL INDUSTRIAL EXHIBITION, CAPE TOWN, SOUTH AFRICA.

Mr. Jas. G. Jardine, Canadian Trade Agent, South Africa, writing to the Department of Trade and Commerce from Pietermaritzburg, Natal, under date the 20th July, conveys the information that a British & Colonial Industrial Exhibition will be held at Cape Town during the months of November, December, January and February, 1903-4, under the patronage of His Excellency Lord Milner, G.C.B., G.C.M.G., High Commissioner for South Africa.

Mr. Jardine is of the opinion that the time fixed for the Exhibition is certainly an opportune one for Canadian manufacturers desirous of doing business in that country, giving them as it does ample time to enter exhibits. Mr. Jardine states that such a Canadian exhibit should embrace samples of the forest wealth of Canada and industries in which large quantities of wood are required, all descriptions of canned goods, dairy and food products, apples, agricultural implements, furniture, boots and shoes, leather, trunks and valises, cotton and woollen textures, models of railway and tram cars, locomotives and traction engines, &c., carriages, stoves and heating apparatus, tin and enamelled ware, axes and mechanics tools generally, and musical instruments including cabinet organs.

The cost of such an exhibit need hardly be considered as every article of the kind mentioned could be sold at a reasonable advance on cost of manufacture and transportation, &c., besides such an exhibit from Canada, side by side with industries from all parts of the Empire, cannot but lead to extensive and profitable business and the opening up of new and permanent trade outlets to Canadian industries generally.

## (I.) WATTLE BARK FOR SOLE AND UPPER LEATHER TANNAGE.

Mr. Jas. G. Jardine, Canadian Trade Agent, South Africa, writing to the Department of Trade and Commerce from Pietermaritzburg, Natal, under date July 19, desires to call the attention of Tanners throughout Canada to Wattle Bark, and in connection therewith, Mr. Jardine states that he has forwarded the following letter to a number of Canadian firms in Canada :

PIETERMARITZBURG, NATAL, July 19, 1902.

GENTLEMEN,—I have been asked by Sir Benjamin Greenacre, of Durban, Natal, President Natal Tannery Company, to call the attention of leading Canadian Tanners, to the virtues of black Wattle Bark for sole and upper leather tannage. The Manager of the Tannery here, an expert from England, informs me that one ton of Cassia alumen, or Black Wattle, contains as much tanning as two and one-half tons of English Oak Bark. It is particularly adapted for making Extract. If, however, used as a tanning agent *by itself* will produce leather *too red* for market, but not so red as hemlock. It makes an admirable tanning agent in combination with Oak Bark, Valonia Myrabolans, Sumach and Gambia. It requires the mixture of one of these, especially oak, both to tone down the astringency of tannage and produce leather of the colour and quality of the very best English Oak. It contains about thirty per cent of tanning and would cost f.o.b. Durban, chopped and bagged, £6. 10s. 0d. per long ton. Very large quantities of this bark goes to England and the United States from both Natal and Australia. If you care to obtain a sample, I will have a cwt. or less quantity shipped to your address by writing me to Cape Town.

Yours truly,

JAS. GEO. JARDINE.

## II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the international Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

### (A.)—UNITED KINGDOM.

The following statement, showing the several articles subject to import and export duties in the United Kingdom, and the duty levied upon each article according to the tariff in operation upon the 1st day of August, 1902, has been issued by the Commissioners of His Majesty's Customs.

Where any manufactured or prepared goods contain, as a part or ingredient thereof, any article liable to any duty of customs duty shall be charged in respect of such quantity of the article as shall appear to the satisfaction of the treasury to be used in the manufacture or preparation of the goods, and in the case of goods so containing more than one such article, shall be charged in a similar manner on each article liable to duty at the rates of duty respectively applicable thereto, unless the treasury shall be of opinion that it is necessary for the protection of the revenue that duty should be charged in accordance with the Customs Tariff Act, 1876.

Any rebate which can be allowed by law on any article when separately charged, shall be allowed in charging goods in respect of the quantity of that article used in the manufacture or preparation of the goods.

As respects the first levying or repealing of any duty of Customs, the time at which the importation of any goods shall be deemed to have had effect shall be the time at which the entry of the goods under the Customs Act is delivered, instead of the time mentioned in Section 40 of Customs Consolidated Act, 1876. | On goods (other than beer) in the manufacture or preparation of which in Great Britain or Ireland, any sugar, glucose, saccharin, or molasses has been used, a drawback equal to the duty in respect of the quantity of that article which appears to the satisfaction of the Treasury to have been used in the manufacture or preparation of the goods or, in the case of residual products, to be contained therein.  |                    |                    |    |    |
| The following is the text of a general order (No. 59 of 1902) recently issued by the commissioners of H. M. Customs, relative to the rates of drawback allowable on the exportation of flour, meal, offals, &c., and the evidence to be required that drawback is claimable:—   |                    |                    |    |    |
| ‘The Board having had under consideration the second schedule to the Finance Act, 1902, setting out the drawbacks to be allowed under the first section of the Act and the conditions upon which such drawbacks can be granted, now direct as follows :   |                    |                    |    |    |
| ‘1. The drawback to be allowed on flour and the meal or milled products (other than offals) of—   |                    |                    |    |    |
| Wheat,  | Buckwheat,         |                    |    |    |
| Barley,   | Peas (not fresh),  |                    |    |    |
| Oats,   | Beans (not fresh), |                    |    |    |
| Rye,  | Lentils,           |                    |    |    |
| which are subject on importation to the duty of 3d. per cwt., under part 1 of the first schedule to the Finance Act, 1902, will be at the rate of 3½d. per cwt. on the net weight exported.   |                    |                    |    |    |
| ‘2. Drawback on offals (as defined in the first schedule to the Act) and on the meal or milled products of maize is to be allowed at 1½d. per cwt. on the net weight exported, being the rate of import duty chargeable on offals and maize respectively.   |                    |                    |    |    |
| ‘The second schedule to the Act prescribes that drawbacks can only be allowed if it is proved to the satisfaction of the Commissioners of Customs that the duties on importation have been duly paid, and, having regard to the fact that most of the articles named in part 1 of the first schedule are of a description which is grown in the United Kingdom, and on which, if so grown, no duty is chargeable, the Board must look to exporters claiming drawback to produce such evidence as will meet the requirements of the law.   |                    |                    |    |    |
| * By Section 6, §2, of the Finance Act, 1896, the limitations in respect of inorganic matter and sand, governing the payment of drawback under Section 1 of the Manufactured Tobacco Act, 1863, may be relaxed by the Commissioners of Customs, where, in their opinion, having regard to the character of the tobacco tendered for drawback, there has been no artificial increase in inorganic matter or sand during the process of manufacture.  |                    |                    |    |    |

'In all cases, therefore, where drawback is claimed on the product of articles of a description which is grown in the United Kingdom, the Board will require, in addition to compliance with the usual drawback regulations, evidence that the articles from which such products have been manufactured were of foreign origin, and consequently that the duties on importation have been duly paid.

The nature of such evidence will necessarily depend on the circumstances of each case, but it may be useful to indicate that:

(a) An exporter who imported and paid duty upon the raw material from which the article specified on the shipping bill has been manufactured will be required to satisfy the Board as to such importation by means of a statutory declaration or a declaration before a collector of customs made by a competent person, or by allowing his books to be inspected by an officer of the department.

(b) An exporter who did not import the raw material must produce a similar declaration or evidence from the actual importer, and, if necessary, from the manufacturer and any other persons through whose hands the goods may have passed.'

A further general order (No. 60 of 1902) has been issued by the commissioners of H. M. Customs, relative to the treatment, for customs purposes, of saccharin and mixtures containing saccharin or similar substances. The following is the text of the order:—

Notice is hereby given that the Lords of the Treasury have directed that, on and after the 1st prox., the full rate of duty of 1s. 3d. an ounce be charged on all importations of saccharin and mixtures containing saccharin, or other substances of like nature or use, in accordance with the provisions of section 7 of the Finance Act, 1901, and the Customs Tariff Act, 1876.

Under this order no questions will arise in respect of importations already assessed for duty which may be remaining in bond on and after the 1st prox. In all such cases the original assessment is to stand.'

This order is dated August 12, 1902.

NOTES.—The above duties shall not in any case extend or apply to any articles (except spirits) grown, produced, or manufactured within the South African Customs Union, or to any articles described in the free list attached to the said Customs Union Tariff.

The value of goods subject to *ad valorem* duty shall be the true current value in the open market for such goods at the place of purchase by the importer or his agent, including the cost of packing and packages, but not including agents' commission if it does not exceed five per cent; provided that in no case shall the true current value, as above defined, be less than the cost of the goods to the importer at the place of purchase.

The importation of seeds or dried plants into North-eastern Rhodesia from India, Ceylon, the Straits Settlements, the Dutch East Indies, Mauritius, Zanzibar, Central America, German East Africa, or Natal has been prohibited since December 1, 1900.

### III.—TARIFF CHANGES.

#### (A).—JERSEY AND GUERNSEY

##### I.—PROHIBITION TO IMPORT INTO JERSEY, ANIMALS, ANIMAL WASTES AND OTHER PRODUCTS.

By virtue of different resolutions adopted by the “*Harbour and Highway Committee*”, duly confirmed by the States, importation into Jersey of animals and articles hereinafter mentioned, is prohibited :

1. Native cattle returning from having been exhibited in England. (*Act dated 5th, and published on September 30, 1891.*)

2. Cattle arriving from Norway, Sweden, Spain, Portugal and Ireland. (*Act dated 2nd, and published on April 4 1892.*)

3. Neat cattle, sheep, swine, goats, green hides, tallow, unboiled, and horns and hoofs of dead animals imported from France. (*Act dated October 1st, and published on November 30 1892.*)

4. Pork, arriving from France. (*Act dated the 20th, and published on January 22, 1894.*)

5. Swine, arriving from Ireland. (*Act dated the 2nd, and published on March 11, 1895.*)

6. Hay and straw, and also dogs arriving from all parts of France. (*Act dated September 3, 1900.*)

7. Dogs of Irish origin. (*Act of June 15, 1901.*)

8. Hay, straw and other forage, neat cattle, sheep, swine and goats or other animals, green hides, tallow unboiled, and horns and hoofs of dead animals, proceeding from Guernsey or brought into Jersey by any vessel having called at Guernsey. (*Act of April 23, 1902.*)

NOTE.—The provisional prohibition in force by virtue of an Act of said Committee dated September 3, 1900, confirmed by an Act of the States, dated October 22, 1900 respecting hay and straw, shall extend to forage used in packing or shipping eggs, poultry, or any other goods proceeding from France. Live poultry imported from France shall immediately after landing be removed to the foreign Animals Wharf under the supervision of the Inspector and remain in his custody at the expense of the owners or consignees, until killed for consumption.—The prohibition enacted by Act of said Committee, dated October 1, 1892, confirmed by an Act of the States, dated November 30, 1892, in reference to the introduction into Jersey of neat cattle, sheep, swine, goats, green hides, tallow unboiled, and horns and hoofs of dead animals imported from France, shall extend to horses arriving from said country. (*Act of April 23, 1902.*)

9. Heads, tongues, and garbage of neat cattle and sheep, proceeding from France or the Island of Guernsey, or brought into Jersey by any vessel having called in France or at Guernsey. (*Act dated and published April 26, 1902.*)

## IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

#### TRADE OF NEW ZEALAND.

SIR,—The report of the trade of this colony for 1901 shows a marked increase in imports and a considerable decrease in exports in comparison with the previous year. The figures are :—

|            | Imports.    | Exports.    |
|------------|-------------|-------------|
| 1900 ..... | £10,646,096 | £13,246,161 |
| 1901 ..... | 11,817,915  | 12,881,424  |

The volume of exports and imports are drawing closer together but still there is nearly a ten per cent margin in favor of the former.

The Canadian trade shows a slight improvement in both imports and exports. For the last two years they were :—

|            | Imports. | Exports. |
|------------|----------|----------|
| 1900 ..... | £41,165  | £ 287    |
| 1901 ..... | 42,178   | 2,118    |

The imports and exports were : —

NEW SOUTH WALES.

In May last I gave a summary of the trade of this state for 1901. It showed an increase of imports from Canada over last year of nearly thirty thousand pounds and a decrease of exports of slightly over that amount, due to the diminished output of sugar.

The items of imports from Canada for 1900 and 1901 were :—

|                                    | 1900.  | 1901.  |

| Safes.....               | 54    |
| Toys.....                | 121   |

These figures as in previous years are but approximates of the trade done. In one or two items, notably ale and beer, they include articles not Canadian and in other articles as ploughs and agricultural implements—in New Zealand the figures are much below the actual imports—and in some articles such as wall paper neither in New South Wales nor New Zealand is there any record of trade done though there is one of some amount.

The trade taken as it appears in the returns shows a good deal of fluctuation in both the variety of articles sold and the amount of business done. Some articles, such as paints, varnishes and other carriage material, which promised at one time to develop into a considerable business, have dwindled away and some have disappeared from the list of Canadian goods. Many causes account for this state of things.

In many instances the demand of the home market has prevented catering for export. A few months ago a Canadian firm wrote me that it desired to obtain business from Australia. Arrangements were made to this end and a first order was sent. It was not very large but the last mail brought the information that the firm was sorry but that it was too busy to execute the order. At no time apparently have the factories of Canada been so pressed to their capacity than at the present time. Australian agents who have recently returned from Canada have not succeeded in making many

arrangements for business, and some of them were altogether unsuccessful. In some instances price and quality have stood in the way of securing Australian trade. In a few cases bad methods of business and bad packing of goods interfered with success. Very much improvement has been shown during the last year or two in these respects, but there is not a week without complaints. Last week I was informed that a Sydney House, which had worked up a good business, was much dissatisfied with the Canadian manufacturer who supplied the goods, because of delay in replying to letters of inquiry. To letters respecting ordinary business, good attention was given, but if there was an inquiry for some line in which there was a slight departure from the goods previously sent no response was received and the people here were uncertain whether they were to receive the articles or not. It might not have been profitable for the Canadian manufacturer to make the change but if so he should have promptly advised the Sydney customer. It would at least have avoided the uncertainty and dissatisfaction that now exists and may lead to the Sydney firm seeking other sources of supply.

#### MERCANTILING GOODS.

Canadians are giving a good deal of attention to the export of goods and seek information respecting markets and urge the establishing of lines of steamers, but too little attention is paid to the mercantiling of goods. It is necessary to have goods that will suit the market. It is also necessary to get them to the market in good condition and at the cheapest rates, but it is also essential to have as suitable and effective means of selling them. Unsuccessful experimenters may assert that the Australasian market is a difficult one in which to get a foot hold. As a matter of fact the conditions are not more difficult than are those of the Canadian save as they are made so by the greater distance between the producer and consumer. Here as in Canada the producer and not the consumer makes the market. If a manufacturer begins business in Canada he commonly finds that he has entered a market that is pretty well supplied, and if he is to secure a trade he must persuade the buyer that he is offering an article that has advantages in quality or price. That means expense in advertising and travellers with samples. It is just so here, but many Canadian manufacturers imagine that the conditions are reversed and that the buyer will make the business without expense to them. A number of Australian business men now visiting Canada have made some direct purchases but the trade created in this has been small in extent, and commonly has not been of long duration. Some time ago a manufacturer sent a cut with a brief description of an article which he made to an agent. He refused to send a sample but said he expected to get a car lot of orders by next mail. No firm in Australia ever did or is likely to give such an order to any firm, much less to a firm with which they had no business. Naturally they refused to give an order for even a dozen without seeing a sample. Such cases do not occur as often as they did three or four years ago, but there is still much misunderstanding as to the nature of getting into this market.

If there is one thing made clear by past experience it is that Canadians must do their own business. Every other nation that has secured a foothold has had to do it and Canada cannot hope to change this law of trade. The growth of the trade of the United States here is due to the increasing extent to which the firms of that country are carrying out this policy. Until within the past three years the large agricultural manufacturers had arrangements with large Australian Houses to handle their business. The result was that it fell behind and now all who are doing business of any extent have opened up their own branches.

There are various methods pursued in getting into the market in this way, depending upon the class of goods to be sold and the capital available. Those adopted by Canadians may be briefly enumerated:—

Opening up a branch carrying a full stock and doing the retailing. This is done in the case of agricultural implements and bicycles with marked results. It means at least five sub-branches to do the business thoroughly and involves a very heavy outlay at the beginning, the use of a very large capital and is open to but few concerns in Canada as yet.

A second is opening an office with or without carrying a certain amount of stock. The representative would take orders from the wholesale trade and the larger retailers who import their goods. This is applicable to the bulk of the goods imported. The carrying of stock frequently is a valuable assistance in introducing the goods. This method involves considerable expense and is open only to a limited number of Canadian firms. The volume of business that could be secured will be insufficient to warrant that expense in the case of the majority of exporters.

Sending out a traveller periodically from Canada to take orders. In nearly all cases the amount of the orders secured will be disappointing in the case of first trips and commonly of second ones also. Before a large trade can be secured the buyer must have obtained confidence that the goods are such as the market will take and that the firm can be relied upon to maintain the quality and supply orders as sent. This confidence is not generated in a day, nor a week and can come only from an extended experience. Unluckily the experience in too many cases has been to destroy confidence in the ability to fill orders at least.

Another is to employ an Australian agent. Where a good agent has been selected, the article is specially adapted to the market, the price is right and it costs little to introduce it, good results follow. These conditions are not always found and the result is a failure. It takes money to get a new line on the market and as a rule even a good commission agent has little spare capital and is under the necessity of earning a living week by week. In order to cover the initiatory costs he frequently asks for some financial assistance. This has rarely been given by Canadians. Some money has been paid but unfortunately it was paid in one or two instances to incompetent men who could secure no results for the expenditure. There must first be a good agent or it is useless to spend money in travelling or advertising. And by a good agent is one suitable for the line of goods to be sold. A man because of his knowledge and connections may sell boots and shoes but fail in hardware. The weakness of many commission men is taking on too many lines and of such varied character that it is impossible for them to do justice to them.

Two methods Canadians have not tried. One is the co-operation of two or three manufacturers in placing their goods upon the market and the other is the formation of an Export Company. In one or two cases travellers have come here with a side line which is commonly neglected, but in no case has there been to my knowledge conjoint action in lines on which there is a sufficiently large trade to be profitable.

No attempt at all has been made to form an Export Company. There are many lines in Canada made by manufacturers which could be sold here which the makers have not the capital to put on the market. To make goods is one branch of business, to sell them is another. A company controlled by specialists in selling abroad with sufficient capital to carry on the work would greatly extend Canadian trade and be a blessing to manufacturers who otherwise could not hope to dispose of goods abroad.

I have not included the attempt to do business by sending out circulars or catalogues to wholesale firms. These are useful helps, but it is rare that alone they make any trade or secure a permanent connection.

#### THE DROUGHT.

Since my last report there have been some coastal rains and some showers inland, but nothing to improve the condition agriculturally or pastorally. The prospects are rather worse than four weeks ago and a very poor harvest is now assured. No estimates have yet been made of the acreage of wheat growing but the probabilities are that Australia will not produce enough for its own needs. All the wheat growing states are affected. It is too early to speak of the prospects in New Zealand. It is reasonable to expect a demand for wheat and an advance in the price of flour. I regret that I have had no responses to a circular sent out for information as to parties ready to export should the demand arise. As the demand is certain I should be glad to get the addresses of exporters of wheat with samples of the grades as soon as fixed by the Inspectors.

The price of butter, cheese, ham and bacon have advanced. They are now :—

|              |                |
|--------------|----------------|
| Butter ..... | 35 to 38 cents |
| Cheese ..... | 16 to 19 "     |
| Bacon .....  | 16 to 19 "     |
| Ham .....    | 20 to 24 "     |

The duty still remains six cents per lb. on all these articles and it is not likely to be reduced.

I am advised that first-class Canadian butter could be landed at Sydney for twenty cents per lb. There would, therefore, appear to be a fair margin for profit, but I fear the opportunity will be lost. This is another illustration of my statement that Canadians must do their own business. Canadian butter is practically unknown in this market. A couple of samples have arrived in fair condition but not enough to give assurance to buyers, and though at one time two or three firms were inclined to order a quantity, in the end they refused to take the risk. Canadian exporters on their side have also declined to take the risk and nothing has been done. A Victoria firm has sent out a representative but unfortunately no butter. They hoped he might get orders with letters of credit, but naturally the Australian buyer said.—“We don’t know your butter. If you will bring it here and it suits the market we shall be glad to buy it.”

New Zealand butter is quoted at 36 cents per pound. The first shipment that came here was sent on to South Africa on the ground that the market here would not take it. A second shipment was sold at 9 cents below best Australian, but the shipments were continued until to-day it is quoted within two cents of best fresh Australian. Though the distance from Canada is longer than from New Zealand, the means of carriage is better, and first-class Canadian ought to be landed in as good condition in Brisbane certainly as first-class New Zealand, and the price of butter in Brisbane is two cents higher than in Sydney.

First shipments involves a good deal of risk, and in all probability would net a loss. There is a disinclination on the part of a shipper to incur these risks in order to make a market which will be shared by others. I submit for your consideration whether it would not be advisable for the Government to make one or two shipments in the outset of a trade like this. The conditions of shipment would be carefully watched and the best soon discovered. The loss would be small. It is probably too late now to secure profitable results, as in six weeks this market should be supplied from the southern coastal districts and portions of Victoria which have had fair rainfalls and receive supplies, if necessary, from New Zealand. These supplies depend upon further rains which may not occur. Even should experimental shipments be of no present value, the results will be useful in case of future droughts, and once it be established that Canada can land good butter, the trade will take care of itself.

#### THE TARIFF.

The recommendations of the Senate are now before the House of Representatives which, it is anticipated, will have considered them and returned the Bill to the Senate this week. Very few changes from the duties now levied are likely to be made.

#### THE HARVEST.

Since writing with reference to the prospects of the coming wheat harvest, my views respecting the demand for Canadian hard wheat have been confirmed. Advices to hand say the harvest of Queensland is an assured failure, that of New South Wales about a third of a crop, and the position in Victoria and South Australia doubtful, but the probabilities are of a poor yield. I therefore beg to ask that standard samples of Manitoba grain be sent me at the earliest moment. Correspondence looking to business in grain has been initiated, but the receipt of these samples will aid in securing it. The large demand is likely to be for No. 1 Hard, as the bulk of the wheat harvested in Australia will probably be below the usual average quality, and a strong flour will be required to bring up the grade of that from home grown wheat.

## (B.) AUSTRALASIA.

## REPORT OF COMMERCIAL AGENT.

*(Mr. J. S. Larke).*

SYDNEY, N.S.W., September 8, 1902.

The Honourable,  
The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—The last two weeks of August were characterised by rainfalls widespread and of considerable extent over New South Wales, a portion of Queensland and of the other states. So far as this state is concerned they have been the most useful rains for years. It is not an assurance that the drought has broken up as the West is still dry and more rains will be needed everywhere to ensure the advantages of that fallen, but certainly it has greatly changed the aspect of affairs for the better. The rains were followed by warm weather and grass at once sprung up and the necessity of hand feeding flocks has passed away at the majority of the stations.

The consequence has been a lowering in the price of many articles. Butter has gone down to a figure that prohibits imports from Canada and though there has not been a material lowering in the price of grains the market is in no mood for ordering for future delivery just now. Even under the changed aspect I do not think the next harvest will yield sufficient wheat to meet the home demand. In addition to flour I expect that wheat, oats for oatmeal, barley for malting, and peas should be required from Canada. It is possible also that potatoes and onions could be sold here though hitherto California has monopolized the trade in onions. Correspondence is being conducted looking to business in all these lines.

With the rain has come a brighter prospect for general trade. It will take more than one year of good seasons to restore the lost flocks and herds of New South Wales and Queensland but the rains have given hope. They will enable miners that have suspended to resume work. This in itself is an important advantage.

Another factor is the probable early settlement of the tariff and the adoption of measures for facilitating inter-state trade. The provision in the Australian constitution which provides for a return to each State of three-fourths of the customs derived from goods consumed by its people necessitated a most elaborate system of bookkeeping and minute system of export entries for goods shipped from one State to another. It was much easier to import direct from abroad into each state than to transfer these imports, even where duty had been paid from one state to another. Efforts are being made to secure a much simpler process than that now used. As Sydney and Melbourne are the chief importing centres for Canadian goods anything that will facilitate inter-state trade will be helpful to Canadian business.

## THE COURSE OF THE TARIFF.

The House of Representatives has now had the tariff before it three times and the Senate twice. First the House of Representatives passed it, and sent it to the Senate. That chamber considered the items, and sent back a message requesting that 103 amendments should be made. The larger half of these did not involve matters of principle, and the government took time to consider what should be done with them. As a result of its consideration it decided to agree to 45 out of the 103 requests, to disagree with 53, and to offer compromise with regard to five. The House of Representatives in the main followed the government's advice, but in some cases acted in opposition to it, and the result was that when the tariff schedule again reached the Senate there were a few over 40 items in which the two Houses were not in accord. The Senate again went

through the schedule, and still further reduced the number of points of divergence. The following table sets them out :—

| Article.                                      | Senate Suggestion.       | House of Representatives.       | Senate Reply.            |

| Rolled iron or steel beams, &c.....                 | 15 "             | 10 "               | 12½ "                  |
| Solar and residual oil . . . . .                    | ½d. p. gall.     | Free.              | ½d. p. gall.           |

This leaves cigars, butter, cheese, bacon and hams, paraffin wax, wheat, grain and pulse prepared N.E.I., hay and chaff, rice N.E.I., apparel, hats and caps, silk and cotton socks and stockings, cement, ammunition, and articles imported for the official use of the Governor General as in the existing tariff.

It is anticipated that the Senate will accept these changes and that next week the tariff as thus amended will become law.

I have the honour to be,

Your obedient servant,

## (C.)—SOUTH AFRICA.

*(Mr. James G. Jardine.)*

RAND CLUB, JOHANNESBURG, TRANSVAAL,  
SOUTH AFRICA, August 25, 1902.

Honorables,

Sir RICHARD CARTWRIGHT, G.C.M.G.,  
Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—Since the last report I had the honour of addressing to you from Durban on June 14 last, I have visited Pietermaritzburg, Ladysmith, Newcastle and Johannesburg, and met in their respective places of business the leading importers of these cities. I have also interviewed the Executive Officers of the various Chambers of Commerce and was given the privilege of addressing the members at their several monthly meetings. Committees were afterwards named by some of the Chambers to meet and discuss with me the industries of Canada best suited to the requirements of South Africa, from whom I received very valuable assistance, and have succeeded in establishing communication between a large number of importers in this country and Canadian manufacturers of furniture, agricultural implements, boots and shoes, timber, woodenware, stoves, carriages, cycles, and food products generally. I have also written to many Canadian business firms as to the necessity of improved methods of advertising. This is all the more important on account of our neighbours to the South, who are making a great thing out of their "prices current" sent free of charge monthly to all South African merchants and containing a tremendous fund of information. The lists and prices are given of everything, including the latest specialties, and there are hundreds of illustrations and neat little pictures of exactly the thing required, I see this publication everywhere, and people wonder how it is that Canada, so wide awake in other matters, has not adopted similar methods. It has helped the neighboring country to get most of the trade in mowers, hay presses, two-furrow ploughs, corn shellers, many dairy appliances, and cheap native ploughs sold out here from thirty to thirty-five shillings, and used by thousands of Kaffir farmers. They have also the bulk of the trade in files because they are half the weight of the British, and fifteen per cent cheaper. In all kinds of carpenter's and garden tools, lawn mowers, axes and axe-handles, medium priced, furniture, &c., our neighbours take the lead over British and German goods; not so much perhaps, on account of cheapness, as in the packing and knack of getting their things in smaller bulk and thereby cheapening freights. The atrocious freight charges of the British and Continental Shipping Ring has also helped to divert trade to our own Continent, and now that a direct line from Canada to South Africa is announced, and hailed by Africans with the greatest satisfaction our manufactures ought to be able to secure a fair share of the trade in timber, woodenware, furniture, carriages, boots and shoes, organs, cycles, &c., &c. Food products, including flour, cheese, butter, eggs, poultry, canned salmon, lobster, herrings, &c., crossing the Equator in cold storage compartments should find a ready sale also. The retail prices in Johannesburg for these articles of food are extraordinary high. Consignments of the articles mentioned, and two or three hundred barrels of *choice* 1902 apples should arrive by the first steamer and addressed to Cape Town, Port Elizabeth, Durban and Johannesburg. The enterprising shippers I am sure will not regret this venture, as poor flavorless Tasmanian apples sell here two and three for a shilling. A Johannesburg merchant has given me an indent for 100 barrels of choice Canadian apples, (he proposes to give them away gratis to his customers) to cultivate their tastes for "the World's best fruit." For the information of exporters proposing to send travellers to South Africa, let me say that a commercial traveller is allowed to travel first class and second class rates, namely, two pence or four cents a

mile, and two hundred pounds of baggage free, and excess baggage is charged at one-half luggage rates. Hotel charges for commercial men are from twelve and six pence, to seventeen and six pence per day, and does not include the use of a sample room. I regret to say the barbarous Commercial Traveller Licence Tax is still in force throughout South Africa. This is a relic of the old Dutch and Boer ascendances, and it is hoped that Lord Milner's personal government will lose no time in wiping it out; meanwhile the Cape and Orange River Colony charge jointly £25 or one hundred and twenty five dollars. The Transvaal £20 or one hundred dollars, and Natal £10 or fifty dollars. The Licenses expire at a fixed date and licenses having less than six months to run pay only a portion of the above sums.

Trade has not commenced to boom in the Transvaal, as many expected it would at the close of the war. The establishment of peace had been largely discounted and prepared for. The business houses have large stocks on hand, and hundreds of thousands of pounds worth of all descriptions of goods are still lying at the various seaports awaiting transportation to the rand. Gradually as the troops are removed to the coast and the refugees restored to their homes the railways will be in a position to handle the legitimate traffic of the country, and when that time comes merchants of Johannesburg and elsewhere will be in a position to place extensive orders and then there will be a big rush of trade. In Johannesburg hundreds of buildings and dwelling houses will go up when building materials, now at the coast, can be obtained. Mechanics of all sorts and miners are walking the streets patiently awaiting the advent of these supplies to obtain work. Australia seems to be sending her sons by thousands to the Transvaal on account of the drought and failure of her resources generally. Johannesburg and other cities of South Africa will be spending largely in the near future for electric tramways, sanitation and other public works. New railways and extensions of the older ones are being projected. Steel rails and sleepers, passenger and flat cars will be needed. The Commissioner of Government railways is a Canadian. We have several car factories in Canada. Are they looking for a share of this business? If so I am sure they will receive something more than cold justice at the hands of this bright Canadian Administrator. It is estimated that within the next five years one hundred and thirty million dollars worth of new mining machinery will be required in the Transvaal alone. What are the Canadian Rock drill and other mining machinery companies doing to secure a share of this trade? A big demand for agricultural machinery is bound to arise as the Boers get back to their farms and new settlers are placed. The rebuilding and stocking of the farm houses will cause a big demand for all sorts of materials. The importation of food alone means a tremendous thing for commercial men, and no country in the world is in a better position to take advantage of this immense demand for the necessities of life than Canada.

Before concluding I venture to copy a portion of an article in the *Transvaal Leader* of last week. This is one of the most widely circulated newspapers in South Africa and is published in Johannesburg. It reflects the sentiments of nearly every Africander we meet, including Dutch and Boer, and is headed 'Canadian Energy.'

'For reasons which we shall not wait to analyse, Canada is the most popular of all the British Colonies. It is to-day the most energetic and most imperial of them all. We do not mean that others are less devoted to the Empire—he would be a rash man that would say that in South Africa—but the ancient traditions have found a healthy home there. The vigorous French stock and the conservatism of agricultural pursuits, in a country where a man's personality is not overwhelmed, where he is continually thrown upon his own resources, have developed a race of clean minded, strong limbed men and women, active, intelligent and quite free from the sordid views that arise with deadly facility in centres where the occupation of finance and speculation are supreme. 'We are content' said Sir Wilfrid Laurier the other day, 'We are happy; and Canada, like England, is the home of steady Government that changes only under compulsion. Our Government is better, more dignified, more elastic than that of the Americans. We want no change; we anticipate no change.' And yet it is these stable folk that have shown the fullest measure of Imperial responsibility and the most business like suggestions for practical action. While others have let their tongues and pens run

loose on vague oratory concerning Zolvereins, and other large and blessed words, Canada has instituted a sort of Imperial Intercolonial Trades Information Bureau, and this is backed by a subsidised line of steamships.'

The following memorandum of wholesale and retail prices current of food products in the Transvaal may assist Canadian exporters who are turning their attention to South Africa.

#### WHOLESALE PRICES.

Sweet Milk Cheese, 11d. to 1/1 per lb.  
 Canadian Cheddar Cheese, 1/3 per lb.  
 Imported Butter, finest quality, 23/ to 24/ per doz. pound tins.

 Fowls or chickens, best quality, 7/; middling kinds, 6/ to 6/6 each.  
 Ducks, from 8/ to 11/6 each.

#### RETAIL PRICES.

Forage, from 19/ to 22/6 per hundred pounds.  
 Turkeys, best, from 20/ to 25/; inferior, 12/6 to 15/ each.  
 Onions, best, 25/ to 30/ per bag 125 lbs.; 2nd quality, 20/ to 22/6.  
 Timber, all big contracts in the building trade here are at a standstill owing to the scarcity of material and must continue untill the Railway block at the coast towns eases off; flooring boards are unobtainable, and windows are very scarce.

Deals, 6 inch to 17 inch are 11 ½d., 18 to 19 inch 1/, 20 feet and over 1/1 per foot.

It must be remembered however that prices will be lowered to some extent when the blockade at the coast ports is raised and the railways are able to send goods as formerly to the interior. The mines at the Rand and elsewhere are buying very little food products or anything else, only enough to keep the batteries going as practically no new work is in progress through the shortage of native labour, but very shortly the mines will be running as before the war.

I have the honour to be, sir, your obedient servant,

JAS. GEO. JARDINE.

#### REPORT OF COMMERCIAL AGENT.

(*Mr. C. E. Sontum.*)

CHRISTIANA, NORWAY, October 3, 1902.

The Honourable

The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—Confirming my report for the quarter ending June 30, I herewith have the honour to forward report for the quarter ending September 30, 1902.

On account of the very cold and dry summer and early frosts now in the fall, the harvest in these countries is more or less a failure, and in many districts in Norway and Sweden, it will be a hard winter to meet for the farmers. Even of hay for the cattle, there is a large shortage, and it is said that not since the year 1812 has the crops of every kind been such a total failure. As a consequence, there will be imported large quantities of grain and breadstuffs during the coming year, and the import has already commenced. Only with the last steamer from New York, there arrived in the neighbourhood of 8,000 sacks of wheat flour and several hundred barrels of rolled oats. I have time and time again called the attention of different Canadian millers to the possibilities for a steady and large export of their products to these countries, but it seems as though they are not aware of the importance of this market. I should be pleased to take up

correspondence with one or more mills, who might be interested in having their products introduced here, in the Scandinavian countries ; but as the time is already far advanced, it would be the best if they sent samples and quotations at once. The usual packing here for wheat flour is in sacks of 100 kilogrammes = 220½ lbs. net, and for rolled oats, in barrels of usual size, and half barrels. Considerable rolled oats is also imported in sacks of 50 kilogrammes. The buyers always desire the prices cast, freight and insurance paid to Scandinavian ports.

According to a report published by the Statistical Bureau in Copenhagen, the value of goods imported for consumption in Denmark during the year 1901, amounted to 397·2 millions of kroner. The value of home produced goods for export to foreign countries during the same period, amounted to 292·0 millions of kroner. Thus the difference between import and export is 105·2 millions of kroner.

Comparing these figures with those of the preceding three years, the following general result will be obtained.

| Years.                  | Imported for Consumption. | Export of Home Goods. | Difference.         |
|-------------------------|---------------------------|-----------------------|---------------------|
|                         | Millions of Kroner.       | Millions of Kroner.   | Millions of Kroner. |
| 1901.....               | 397·2                     | 292·0                 | 105·2               |
| 1900.....               | 416·2                     | 281·9                 | 134·3               |
| 1899.....               | 399·8                     | 270·1                 | 129·7               |
| 1898.....               | 367·3                     | 238·5                 | 128·8               |
| 1898-1900 average ..... | 394·4                     | 263·5                 | 130·9               |

The excess of imports over exports in 1901, is therefore 29·1 millions kroner less than in 1900, which is a consequence of a fall of 4·6 per cent on imports, and a rise of 3·6 per cent on exports. Compared to the average excess value of imports in 1898-1900, viz. : 130·9 millions kroner, the decrease in 1901 amounts to one fifth, (25·7 millions kroner) exclusively arising from increased exports.

I have the honour to remain, sir,  
Your obedient servant

C. E. SONTUM.

## (F.) TRADE CONDITIONS, YUKON TERRITORY.

REPORT OF SPECIAL TRADE COMMISSIONER

(Mr. Geo. Anderson.)

TORONTO, October 1, 1902.

Honourable SIR RICHARD CARTWRIGHT, G.C.M.G.  
Minister of Trade and Commerce,  
Ottawa.

HONOURABLE SIR.—In accordance with instructions received, I have pleasure in submitting my report as Special Trade Commissioner, regarding trade conditions in the Yukon Territory.

The rush to the Yukon Gold Fields is so recent that it is scarcely necessary to recall.

Early in 1897, when the richness of the Klondyke was heralded to the outside world, men of all ranks in life and from all countries, headed for the far north of Canada. Steamers from Pacific Coast ports, both in Canada and the United States, were loaded with passengers and necessary supplies, and on arriving at Skagway or Dyea, in Alaska, the difficulties of the journey only commenced. There were almost impossible mountain passes to be climbed and supplies had to be carried up to the summit on horseback, muleback, by dog train and by the patient traveller. Again and again did the stamper ascend the mountain only again to descend to take another load on his back to the mountain top. In the spring of 1898, thousands were camped on the shores of Lakes Lindeman and Bennet, all busy building boats and rafts so that on the opening of navigation they might float or drift or paddle down the swift current of the Great Yukon River, nearly 500 miles to the city of gold. The warm spring time came and the rush down the river commenced, and crafts by the hundreds could be counted. Bonanza Creek, where the first strike was made, empties into the Klondyke River about three miles from its mouth.

Near the mouth of the Klondyke, which empties into the Yukon River, there was a flat surrounded by steep hills, and it was here the eager gold hunters, estimated at 30,000, built their cabins or pitched their tents and founded what is now the prosperous and progressive City of Dawson. The stories of the richness of the field were all true, and future operations have proved that the placer mining camp of the Yukon is the most productive the world has ever known. Elated with success, along with the difficulties of securing supplies, commodities were sold at fabulous prices and a condition of business created unique in history.

Reaching Dawson, the capital of the Yukon Territory, during the summer month, is now an easy proposition. On reaching Vancouver, over the Canadian Pacific Railway the good steamer "*Princess May*" of the Canadian Pacific Navigation Line, leaves the dock bound for Skagway, Alaska, a journey of 900 miles on the Pacific Ocean, but as we thread our way among the Islands we find that 800 miles of the journey is really like a river trip down the St. Lawrence. The majestic scenery, the mountain peaks, the snow clad hills, the immense glaciers, the beautiful inland bays, the intricate navigation, it is impossible to describe.

Arriving at Skagway, three days later, we there take the White Pass and Yukon Railway for the town of White Horse, situated on the Yukon River, a distance of 110 miles from Skagway. For the first 20 miles rising  $4\frac{1}{2}$  feet to the hundred it seems

impossible that any engineer could succeed in finding a way through the difficult pass. In due time we arrive at White Horse, there to go on board one of the magnificent steamers of the British Yukon Navigation Co. We sail down the Yukon River for 450 miles and 48 hours after leaving White Horse, arrive in the city of Dawson.

DAWSON

Is very beautifully located on the Yukon River at the base of the Dome Mountain. The streets and avenues are well laid out. The business houses and dwellings are constructed of wood, with the exception of one or two brick warehouses, and some large warehouses of corrugated iron. There are of course a number of cosy log cabins reminding us of the earlier settlers of four or five years ago.

The Administration Building, the Governor's residence and the Court House, Post Office, Public School and the Bank of Commerce are all creditable buildings, heated by steam and lighted by electricity.

Mention should be made of the four commodious and comfortable Churches which are well attended.

The city affairs are administered by a Municipal Council, elected for the first time this year.

Dawson City is a very orderly, well conducted city, and contains a population at present between 6,000 and 7,000.

CANADIAN AND FOREIGN BUSINESS.

It having been reported that Canadian manufactures and merchants were getting a small per centage of the business of the Territory, I made careful inquiry, and have much pleasure in submitting the following statement showing that Canadian firms are securing a fair share of the trade. This can be further increased by following closely the various items and noting the remarks regarding each item.

## BUSINESS, JULY AND AUGUST, 1902.

It will be noticed that for the months of July and August, 1902, the per centage of business done by Canadian firms continues to increase.

Statement of Canadian and Foreign goods entered at Dawson during the months of July and August, 1902.

|                             | Canadian.          | Foreign.         |

## CANADIAN AND FOREIGN TRADE.

As near as can be ascertained for the years 1898, 1899 and 1900 the per centage of Canadian and Foreign business is here given. For 1901 and 1902 the exact proportion is given, showing the rapid growth of Canadian business.

|            | Canadian.    | Foreign.     |
|------------|--------------|--------------|
| 1898 ..... | 10 per cent. | 90 per cent. |
| 1899 ..... | 15 “         | 85 “         |
| 1900 ..... | 25 “         | 75 “         |
| 1901 ..... | 67 “         | 33 “         |
| 1902 ..... | 70 “         | 30 “         |

## BUSINESS.

The business of Dawson is undergoing a change, and is becoming more of a whole sale or distributing centre. Stores are being established on the creeks in the neighbour-

hood of the mining operations, and miners will hereafter purchase a large share of their supplies nearer their work. This will lessen the retail trade of the city, and a number now in business will find it difficult to continue. Some argue that the closing of the gambling houses and dance halls has proved a direct injury to the business. With this view I cannot agree. It is better that business should find more legitimate channels. The tendency of trade is towards the larger houses controlling the business. This can be accounted for by their purchasing direct from manufacturers, saving the middlemen's profit, the obtaining of lower freight rates which is itself a handsome profit.

#### COMMODITIES.

*Belting—leather and rubber.*—On account of the large quantity of machinery in operation, there is a considerable demand for belting, which is now purchased chiefly from Canadian manufacturers and dealers. The sales will increase, as additional machinery is sure to be introduced.

*Blankets—gray and white.*—Are bought through Canadian jobbers, and are mostly Canadian make. A few of the finer qualities of English white blankets are bought through the same channels.

*Beer and ale.*—In the first few years the ale and beer imported came forward in bottles, and chiefly from the United States. Latterly it is being shipped in barrels and casks, and the total consumption is United States production, with the exception of a small quantity of Guinness's stout and Bass's ale.

*Butter.*—About two or three years ago some inferior butter was received from Eastern Canada, which injured the market for Canadian brands, and latterly nearly all is now being imported from the United States. It is put up in  $\frac{1}{4}$  and  $\frac{1}{2}$  barrels and in cases, the quarter and half barrel packages being in brine. Creamery butter is put up in two pound tins, also in brine, and it is in this way that it is preferred. Latterly a limited quantity from New Westminster, B.C., is finding a market and giving excellent satisfaction. Too great care cannot be exercised by Canadian shippers in having the butter of first class quality and properly put up, as only in this way can the market for butter be redeemed by Canadian firms.

*Biscuits.*—It is a pleasure to say that Canadian biscuits are well put up, reach the market in excellent order and give unbounded satisfaction. Consequently they command the trade.

*Boots and Shoes.*—Certain makes in mens' boots are perfectly satisfactory and probably 60 per cent are of Canadian manufacture. In Ladies the finer lines are American. The purchases are probably 50 per cent of Canadian and 50 per cent of American.

*Boilers.*—To give an idea of the demand, last fall at the close of navigation, 125 boilers were in stock at Dawson, and all were sold before the first of March. The vertical boilers, are from 6 to 20 horse power which are used in small properties. Horizontal boilers from 20 to 75 horse power are in great demand, some being of the locomotive type. Those light in construction and most economical in fuel consumption are preferred. The cost of transportation to Dawson is a very heavy item, and again to the mine location the cost is largely augmented.

*Clothing.*—In ready-made clothing the sales are largely United States goods. A large percentage of the population are Americans, and buyers for the large commercial companies say that the United States clothing is more stylish in finish and more desirable in cut than Canadian clothing. The bulk of this trade can readily be secured by Canadian firms, as it is generally admitted that Canadian clothing is better in material and quite equal to any in the market.

*Cigars.*—A large quantity are imported direct from Havana. Those known as Domestic are about half American and half Canadian. The consumption is large and there are good opportunities for pushing the sale of Canadian made goods. With the establishment of an Inland Revenue office at Dawson, for which provision has been made, the sales of Canadian cigars should increase. There are excellent opportunities in this line.

*Carpets.*—Purchased chiefly from Canadian manufacturers and jobbers. British carpets are also bought from Canadian carpet dealers. With the erection of more modern houses the demand should increase and there is a good chance to push carpet lines.

*Cattle, Sheep and Hogs.*—Nearly all come from Calgary and the North-west Territories. The Pacific Storage Company have very large cold storage facilities at Dawson and their imports this summer were :—1,000 head cattle, 2,000 sheep and 200 hogs. Competent authorities estimate that the total receipts of live stock in 1901, were :—cattle, 5,500; sheep, 10,000; hogs, 2,500, and in 1902 will be :—cattle, 3,500; sheep, 5,000; Hogs, 1,200.

*Candles.*—The consumption in candles by the miners is very large. They are purchased mainly in the United States, although a few from Sarnia, Ontario, have lately made their appearance. They are mostly paraffine wax and composite. The Standard Oil Co., having an agency in Dawson, secure the bulk of the trade.

*Cream, Evaporated.*—Formerly condensed milk was largely used. Now evaporated cream is displacing the milk, and the sales are 90 per cent Canadian, and found to be very satisfactory.

*Chemicals and Drugs.*—Proprietary articles are purchased from the manufacturers direct and other lines from Canadian jobbers.

*Crockery.*—Purchased through Canadian jobbers. Complaints are made that when firsts are bought the order is filled with seconds, and some of the leading merchants in Dawson say they will import direct from England another season.

*Dry Goods, general.*—Supplied principally from eastern wholesale dealers and business very satisfactory.

*Doors and Sash.*—Probably 50 per cent Canadian and 50 per cent American. Shipments recently from British Columbia are reported of excellent quality. As better houses will continue to be constructed the demand must increase.

*Explosives.*—At present there is a limited demand for powder and dynamite, but if quarts should be discovered the requirements will largely increase. Principally procured at present from Canadian manufacturers.

*Electrical appliances.*—The larger quantity from United States firms and said to be 30 per cent cheaper than Canadian goods. There is a good opportunity to secure trade in this line.

*Eggs.*—A large percentage from the United States. Great care should be taken in selecting only eggs of first class quality, as the freight enters largely into the cost at destination. All eggs should be carefully handled before shipment. Eggs are packed in cases containing 30 dozen. Latterly some shipments have been made from British Columbia and reported very satisfactory.

*Engines.*—The quantity of machinery within a radius of Dawson is probably unequalled in any mining camp on the continent. The engines used are both vertical and horizontal for running centrifugal pumps and for hoisting ranges from 10 to 50 horse power. Should be durable, light and compact. These are nearly all of United States manufacture. The demand will continue and Canadian engine builders should by an energetic effort secure the bulk of the trade.

*Flour.*—The Canadian millers have easily 90 per cent of the trade, and is pronounced A 1 in quality. A few shipments from California for pastry purposes also reach the market.

*Furniture.*—Nearly all Canadian, and satisfactory, although some dealers say that improvement might be made in finishing.

*Fur garments and robes :*—All purchased from Canadian houses.

*Fruits, dried.*—Prunes, apricots, peaches and raisins from California.

*Fruits, canned.*—Ninety per cent are Canadian, and are considered superior. I might be permitted to suggest that the labels might be more attractive. They should be packed in strong cases to prevent damage in transit.

*Felt boots and shoes.*—Principally American and occasionally bought through Canadian jobbers. A very large demand in winter.

*Granite ware.*—Exclusively Canadian. Very satisfactory.

*Hats.*—English and American. The English purchased through Canadian dealers. Some of the American finer lines also sold.

*Horses.*—Nearly all from Calgary and North-west Territories.

*Hay.*—This is put up in compressed bales, and comes mainly from Washington Territory, east of the mountains. It is certainly well cured, fresh and green, and extra quality. Canadian firms are making an effort to secure the trade for similar hay grown north of the boundary line in British Columbia. Some idea of the quantity used may be formed, when it is known that 28,000 bales were shipped *via* St. Michaels during the present season.

*Hardware.*—In house building, house furnishing and general hardware Canadian firms are getting the business and the trade in this line is satisfactory.

*Iron, bar.*—Supplied by Canadian Roller Mills.

*Iron pipe.*—This is nearly all supplied by United States firms. Some Canadian pipe was found split and unfit for use. All sizes from  $\frac{3}{8}$  up for mining and steam fitting required, also extra heavy hydraulic piping  $\frac{1}{2}$ ,  $\frac{3}{4}$  and  $1\frac{1}{2}$ . There is a large market for steel hydraulic pipe from 8 to 30 inches, punched, rolled and ready to be riveted and nested for shipment. As hydraulicing increases, a very large quantity will be required. Canadian firms should look up this business.

*Lumber.*—Is coming from British Columbia, besides there is a quantity of local manufactured.

*Liquors and Wines.*—The consumption is principally Canadian and Scotch whiskey with a limited quantity of American Bourbon. Probably 75 per cent is Canadian. French brandies and wines and Scotch whiskies are purchased through Montreal agents. Gins are half Holland and half Canadian. Wines are half French and half California.

*Musical Instruments.*—Pianos and organs, Canadian. A small demand which will increase with the opening up and development of the country.

*Milk, condensed.*—Sale is diminishing, being displaced by evaporated cream, which is nearly all Canadian product and gives excellent satisfaction.

*Meats.*—The sale of canned meats is gradually growing smaller, fresh meats taking their place. There is a good cold storage plant in Dawson, and the company controlling it are importing frozen beef and mutton from Australia and poultry from the United States. Meats from Australia come in steamers carrying refrigerating compartments. Australia to Victoria, thence to Nome, Alaska and thence up the Yukon river steamers to Dawson.

*Miner's Picks.*—A very large sale of drifting picks used and require to be made of special tempered steels. Some of the large dealers are submitting their own pattern to the manufacturers. This trade is worth attention.

*Oats.*—Are being purchased in the United States. The colour and quality is extra. Some very choice oats, plump and weighing about 40 pounds to the bushel have reached the market from the Edmonton district. The sale of the Canadian product should be largely increased by an effort. Nearly 30,000 sacks of oats have come in *via* St. Michaels this present summer.

*Oils, illuminating and lubricating.*—The Standard Oil Co., have an agency at Dawson and the trade is entirely in their hands.

*Paper.*—For building paper there is a large demand and the Canadians have this well in hand.

*Potatoes.*—Principally imported from California and Oregon, as the British Columbia potatoes do not mature in time to reach Dawson before the close of Navigation.

In evaporated potatoes, sliced from Germany are considered the best, but the Canadian granulated are securing a fair share of the trade.

*Pumps.*—A large quantity of Centrifugal 5, 6, 8 and 10-inch are in use and as big plants will continue to increase, so will the demand for steam pumps.

*Rope.*—Wire rope for hoisting from  $\frac{1}{4}$  to  $\frac{3}{4}$ -inch, principally  $\frac{1}{2}$ -inch largely used, purchased in the United States. The demand will increase as large plants are installed.

*Rubber Packing.*—A large market. Canadians are now getting a share but they have not more than half of the trade.

*Rubber Boots.*—To give an idea of the quantity used there were 15 tons of old worn out rubbers shipped from Dawson to a United States Pacific port as junk one day in August, 1902. Some Canadian rubbers shipped a few years ago proved very inferior and unsatisfactory, and since then the main purchases have been from the United States. Careful nursing, an energetic effort and a first-class article will again secure the trade for Canadian firms.

*Rubber Hose.*—Very extensively used, especially  $\frac{1}{2}$ -inch for steam purposes to connect steam pipes to thawing points. A good market and Canadians are not getting their share.

*Road Scrapers.*—These are used in considerable quantity in mining operations. They are soon worn out. Canadians by pushing can secure the trade.

*Sugar.*—Granulated and cube principally from the United States. British Columbia refiners are sending some, but are only getting a small share of the trade. Active competition should command more business.

*Salt.*—Entirely from Windsor, Ontario, and every one praises the quality.

*Stoves and Cooking Ranges.*—Are nearly all Canadian. A good size fuel box and a large oven are required. A number of sheet steel heating stoves are used. The trade seems to be well distributed among the leading Canadian manufacturers.

*Syrups.*—Maple syrup put up in one-half and one gallon tins required. Golden syrup from British Columbia. This trade practically in the hands of the Canadians.

*Salted and Smoked Meats.*—Altogether American hams and bacon used. I presume the development and increase of our trade with Britain has prevented Canadian packers and curers from going after the Yukon trade. Certainly the quality of the Canadian meats will secure the trade whenever our packers desire it.

*Salmon, canned.*—The superiority of the British Columbia stock is acknowledged and commands the trade.

*Sluice Forks.*—A very large quantity used and principally Canadian.

*Shovels, Miners.*—Half spring, long handled and the preference given to American manufacture. A few of Canadian make are finding a market. By complying with the needs of the buyers there is no reason why Canadian goods should not command the business.

*Saddlery and Harness.*—Nearly all supplied by Canadian houses.

*Soap.*—For toilet soap English and American. In laundry soap probably 50 per cent American and 50 per cent Canadian. Canadian soap manufacturers should look up this business.

*Tobacco.*—While there is a small quantity of Canadian sold by the dealers, the bulk is American importation. It is expected that the Inland Revenue Office, about to be established in Dawson, will assist the sale of Canadian tobacco.

*Underwear.*—Cheaper grades are Canadian, and the better lines English and American.

*Vinegar.*—The vinegar is concentrated one to twelve to save high freight charges, and chiefly of German manufacture.

*Vegetables, canned.*—Nearly all Canadian and giving excellent satisfaction. Bought from members of the Cannery Association.

*Wagons.*—A large number of what is known as 'farmers wagons' coming from Canadian makers. The heavy mining mountain and stage wagons are nearly all American. Teaming to the various camps and mines and stage wagons require to be of special strong construction, as heavy loads are carried using four and six horses to the team.

RETAIL PRICES OF CERTAIN COMMODITIES.

It is interesting to note the extraordinary values and fluctuations of some commodities during the excitement of boom times, and present prices. Also wages during same periods.

GOLD MARKET.

The gold dust and nuggets are now purchased by the bank or sent by express to outside markets. Some of the leading men of Dawson are of the opinion that the government should establish an assay office and purchase the gold. There is a splendidly equipped government assay office at Vancouver and it might not be advisable to establish others at various points. If a market could be found for gold at assay value less the cost of transportation, insurance and eastern exchange, it would certainly be in the interests of the district.

COAL.

Bituminous coal of a good quality has been found at various points and is being mined at Five Fingers, Rock Creek and at White Horse, the terminus of the White Pass Railroad. The latter coal has been tested on the locomotives of the railroad and pronounced equal in quality to the Comox coal of Vancouver Island.

COPPER

Has also been discovered near White Horse. The mine has lately been examined by large capitalists with the view of further development.

MEN EMPLOYED.

The following is an estimate of the number of men in the different districts engaged in mining :—

There are no doubt a large number of prospectors to be added to the above.

WHITE PASS AND YUKON RAILWAY RATES.

Here follows the published freight tariff rates in condensed form, of the above railway.

Following the tariff is a memo of the classification of some of the principal commodities :—

All rates are in cents per 100 lbs. Wharfage charges at Skagway are \$2 per ton, and are not included in any rate given.

U. S. Pacific Ports mentioned are Seattle, Tacoma, Port Townsend and San Francisco.

## SHIPPING INSTRUCTIONS.

Although the Yukon Territory and Atlin, in British Columbia, are in Canada, shippers will carefully observe that it is absolutely necessary to follow instructions given below. It will enable customers to get speedy delivery and prevent confusion and delay.

All goods consigned as above must pass through a foreign country (Alaska) before reaching destination.

*Via St. Michael's.*—Goods arriving at seaports in British Columbia in transit in bond may be entered for exportation to St. Michael on the usual form. Goods of Canadian origin or foreign goods, duty paid in Canada, when transported as aforesaid, may be admitted into the Yukon Territory free of duty, if the invoices thereof (in duplicate) are certified by the Canadian exporter before a customs officer in accordance with form which follows:—

CERTIFICATE FROM CANADIAN EXPORTER OR HIS AGENT FOR THE YUKON TRADE,

DOMINION OF CANADA CUSTOMS REGULATIONS GOVERNING SHIPMENT OF GOODS INTO  
BRITISH TERRITORY VIA SKAGWAY.

Considerable delay and confusion has been caused in the past by shippers not understanding the requirements of the Dominion Customs Department. The following infor-

mation is given for the guidance of shippers, and the instructions herein contained must be strictly adhered to.

*Shipments of Goods from Canadian ports destined to points in British Territory, via Skagway, must be accompanied by :—*

Two (2) certified copies of invoices (certified clause not necessary on these).

Three (3) copies of Bills of Lading, and

Four (4) copies of Canadian Customs special steamer and railway manifest must be made out, one of which is to be filed by the purser with customs at point of origin, and three copies sent with goods to Skagway.

Each package must be plainly marked, showing consignee and destination and contents of package.

Invoices must show the exact number of packages and this number must agree with the number on Bill of Lading.

Goods shipped from Canadian ports to points in British Territory via Alaska, in bond, are bonded through the United States territory free.

All of the above papers are necessary for customs purposes at Skagway.

#### ROUTES.

The season of navigation is open four and a half months in the year, from May 20 until October 10.

*There are two routes.*—1st. From any Pacific Coast port to Skagway in Alaska, thence via White Pass railway, crossing the boundary between Alaska and Yukon Territory at the summit and then on to White Horse on the Yukon river, a total distance by rail of 110 miles. From White Horse by boat down the Yukon river a distance of 450 miles to Dawson. The British Yukon Navigation Co., a branch of the White Pass Railway system, operate nearly all the boats on the upper river, there being three or four independent boats.

2nd. From Pacific Coast ports via ocean steamer to St. Michael's in Alaska near the mouth of the Yukon river, then transferred to river boats and up the Yukon river to Dawson, a distance of 1,650 miles.

This trip takes about thirty days. The steamers both on the Pacific and on the river via St. Michael's are operated and controlled by two large commercial companies doing business in Dawson, viz.:—

The Northern Commercial Company with headquarters at San Francisco, and the North American Trading and Transportation Company with head office at Chicago, Illinois, and main office at Seattle, Washington Territory.

When Navigation is closed the route is via Skagway by White Pass Railway to White Horse, thence by stage or carrier by the winter road just constructed, a distance of 300 miles. The government have just completed a new winter road shortening the distance from 370 miles to 300 miles as above.

#### DIFFICULTIES.

One of the main difficulties in doing business is the unavoidableness of having all goods delivered during the season of navigation. This necessitates the storing of very large stocks; one company will have over \$2,500,000 worth of merchandise in their warehouse at the beginning of the winter season, and it can be readily seen how difficult it is to estimate closely the requirements for so lengthened a period. The insurance rates are very high, the freight in many instances largely exceeds the first cost of the goods, the probabilities of deterioration during the cold weather is considerable and the cost of help is expensive. For all these reasons it is costly to do business, and prices of necessaries are consequently high. The miner and the working man must have good wages to maintain himself and his family, and it is very difficult for the individual miner to earn sufficient wages operating his own claim under present conditions. There was

universal complaint about excessive freight rates over the White Pass Railway system. Their published tariff will be found elsewhere in this report. If, as was stated, the large buyer is able to make contracts for large shipments at much lower rates than the smaller buyer, then one thing is sure the small dealer will soon be out of business or be compelled to purchase from the large trader.

What is wanted is an equitable rate to all, and this I believe would be satisfactory to the merchants of Dawson. Reduced transportation rates are absolutely necessary to the welfare of the business community. It is only fair to mention that the earnings of the railways are largely earned during the four and a half months of navigation, and the total tonnage is comparatively small, probably by both routes this season 28,000 tons.

#### FUTURE DEVELOPMENTS.

Canada has a great heritage in the Northern Territories, indeed the area is equal to a vast empire. It may be a frozen land for months in the year, but the climate is no less favourable than the province of Manitoba and the North-west Territories. The future just depends on the activity of our development. We will never know what we have until a railroad is built to the Great North through Canadian Territory, and as soon as practicable this ought to be done. The government, with commendable energy and foresight, have erected a telegraph line over two thousand miles to Dawson and I trust the time is not far distant when it will be followed by a railroad line.

#### FUTURE MINING PROSPECTS.

It is difficult to estimate the output in the years to come, and I leave the solution of this question in the hands of the Department of Mines, whose efficient Superintendent has lately investigated the whole district. That the production has fallen off during the past two years there is not the slightest doubt, but with improved methods in mining operations now being rapidly introduced, it is expected that the next few years will prove more fruitful. Practical miners have every confidence in the district and from the number of claims that daily are being recorded, there must be a large area unprospected and undeveloped. It is true there are claims in a state of suspended animation that may again be profitably operated.

The question of quartz mining, which would certainly give permanency to the camp, is yet in the balance. There is evidence that the gold nuggets now being taken from the placer mines by their marked angular and unworn character has not travelled long distances and are of local origin. Samples of quartz has been brought into Dawson and the assay value would indicate that it could be worked to great advantage. I am pleased to see that the government propose establishing two experimental stamp mills which is certainly encouraging to quartz prospectors, as they will soon be able to estimate the worth of their finds. Everything should be done to encourage the placer or quartz prospector as on their primary work the future of the district depends. Considerable complaint, and I think justly, is made regarding the large concessions which are not being worked. My opinion is the concession, are and also the small owner should be compelled to work their claims within a reasonable time or abandon their rights. Claims held for speculative purposes retard the progress of the district.

#### METHODS OF MINING.

I am indebted to J. B. Tyrrell, Esq., C.E., for the following article, and I am sure it will prove of interest to readers of this report:—

In the summer of 1896, gold was discovered in Bonanza Creek, and during the winter of 1896 and 1897, shafts were sunk through the alluvial gravel in Eldorado, Bonanza and other creeks, and the richness of many of the claims in the valley-bottoms was proved beyond question. The ground was found to be permanently frozen to an unknown depth from the surface. The miners who had, during the previous decade, been working

on Forty Mile River and its tributaries, had been accustomed to divert the water of the stream on which they were working into several longitudinal ditches cut in the "muck" or vegetable mould on the surface, and pick the muck down into the running water, which would carry it away. In this way the muck which might have a depth of from six to ten feet might be entirely or almost entirely removed.

The gravel stripped of its covering of "muck" was then allowed to thaw under the influence of the sun and wind and was afterwards shovelled into sluicē boxes and the gold removed therefrom. This process was suitable only when the thickness of the alluvial deposits were not great, say between ten and fifteen feet. When it was deeper some other method had to be adopted and shafts were sunk by building fire after fire in the same place and digging out the thawed ground and raising it to the surface. When bedrock was reached, on top of which the richest ground was usually found, fires were laid around the sides of the bottom of the shaft so sunk and the thawed dirt raised to the surface with a bucket and a windlass. In this way a chamber often fifty or sixty feet in diameter was excavated at the bottom of each shaft and these chambers might be connected so as to undermine a large area.

This process which is known as drifting with wood fires was only applicable in winter, for in summer the fires would thaw far more ground than was necessary and the carbonic acid gas generated by the fires would not run from the cool underground chambers or drifts, but would remain in them for days, making access to them impossible. Besides, even in winter the process used a large quantity of wood and was slow and expensive.

In the winter of 1898 and 1899 and during the following years, various devices were adopted for thawing the ground without the aid of wood fires, but of these the one that is now almost universally adopted is the boiler generating steam to a pressure of about 100 lbs. to the square inch, from which the steam is conducted in pipes and flexible hose to "points" which are driven into the gravel or underlying bedrock while the steam is turned into them. Each point, if steamed for twelve hours, will thaw from four to five cubic yards of dirt. This process is known as drifting with steam, and as it does not generate any noxious gasses underground, it is equally applicable both in summer and winter.

Instead of using live steam and points to thaw the gravel, some miners are using pulsometers and others force pumps to thaw it preparatory to being hoisted to the surface. The gravel that is mined in winter is hoisted to the surface, formerly by a hand-windlass, but now by a steam hoist, and piled there until spring, when it is shovelled into sluice boxes. That which is hoisted in summer is dumped directly into a sluice box, when the gold is washed from it immediately.

In this method of working the following might be taken as a list of the necessary articles of machinery: -1 boiler 20 to 50 horse power; 1 hoisting engine 12 horse power; 500 feet  $\frac{3}{4}$  steel cable; 300 feet  $\frac{3}{4}$  steel cables; 1 self-dumping bucket carrier capable of carrying one ton; 210 points 5 feet long hydraulic pipe; 400 feet one inch pipe; 300 feet  $\frac{3}{4}$ -inch pipe; 500 feet  $\frac{1}{2}$ -inch pipe; 150 feet steam hose; one 8 horse power engine; one 24 inch circular saw; 1 small portable saw-mill; forge; anvil; blacksmiths tools; carpenters tools; 1 No. 5 pulsometer; 1-2  $\frac{1}{2}$ -inch Worthington duplex pump.

The first method, known as open cutting, is still used in shallow ground, but instead of shovelling the bottom gravel into the sluice boxes by hand it is now scraped in by scrapers drawn by horses or a reversible hoist. The pit is drained by a centrifugal pump, and the water for sluicing is often raised by a centrifugal pump.

In one place, when the ground is not frozen, a large dredge is working successfully, while on some of the hill gravels, where water can be obtained at slight cost, the gravel is being moved and sluiced very cheaply by a hydraulic giant.

The methods briefly outlined above are the groundwork of all the mining in the district. Without a relatively large initial outlay for plant, very little of the ground can now be worked successfully.

#### BANKS.

At Dawson there are branches of the Canadian Bank of Commerce and the Bank of British North America, both doing large business. The interest rates vary from one

per cent to two per cent per month. These banks purchase all the gold offered and make collections for their customers.

#### AGRICULTURAL PROBABILITIES.

Professor Macoun, Botanist of the Department of Agriculture at Ottawa, visited the district this summer, and I venture to predict his report will be most interesting as to the agricultural prospects of the Yukon Territory.

The agricultural possibilities, I believe, are unbounded, and that there are millions of acres in this great new unknown possession susceptible of cultivation. I am quite aware that this statement will be discredited by many, but some of us remember that less than a quarter of a century ago many were of the opinion that Manitoba and our North-west Territories were uninhabitable and uncultivable.

#### HON. J. H. ROSS.

It is proper that I should bear testimony to the great esteem in which all classes of the community have for the Hon. J. H. Ross, Governor of the Yukon Territory. He is known as a gentleman worthy of respect, a fair, upright and righteous administrator. It is hoped that he will soon recover from his present illness, which, it is thought, has occurred from overwork in his anxiety to attend to public business.

#### NORTH-WEST MOUNTED POLICE.

The citizens speak in terms of praise of this fine body of men. Foreigners, as well as Canadians, informed me that they were of the opinion their equal as a police force were not to be found. They are a terror to evil-doers and a praise to them that do well.

#### HOW TO INCREASE CANADIAN BUSINESS.

By carefully studying the remarks under the various items the manufacturer or merchant can readily see in what lines Canadian business can be increased. In few instances would it pay to send travellers such a distance at a large expenditure, and those desiring business connection must themselves be the best judge.

The largest dealers send their buyers to the primary markets and purchase very little from travelling salesmen who visit Dawson.

There is no doubt that a good machinery salesman could secure large orders for Canadian firms, as the demand for boilers, pumps and engines, &c., is very large, and will continue.

When orders are received they should be promptly acknowledged and promptly filled, and great care should be taken in packing goods properly, securely and safely, remembering the long distance to be carried.

There is no use sending inferior goods to the Yukon, as they are prepared to pay for a good article, and satisfactory qualities will command future business. In catering for the Yukon trade or for any new market it must be remembered that conditions, climate, styles and requirements may be quite different from those of our own market, and in building up an export trade, which this virtually is, although in Canada, an intelligent study of the whole situation must be made. Producers and manufacturers will require to adapt themselves to the position and make an effort to supply such articles as are suitable to the requirements of the people whose trade they seek in price, form and quality.

#### ATLIN, BRITISH COLUMBIA.

I also visited Atlin, B. C., which also enjoyed a boom during the Klondike excitement.

Atlin is reached from Caribou, a station 67 miles from Skagway.

During the season of navigation the steamer *Gleaner* of the British Yukon Navigation Co., makes semi-weekly trips through Lakes Nares, Tagish and Taku Arm to Taku. At Taku there is a portage of about two miles traversed by a tramway (probably the shortest railway in the world) to the western shore of Atlin Lake and the lake is crossed by steamer in half an hour where you land at beautiful Atlin, a town of about 500 inhabitants.

The scenery of this district could scarcely be surpassed, and I think this region will yet be visited by thousands as a health and summer resort. The climate and opportunities for fishing and hunting are all that could be desired.

The outlook in Atlin district, is very hopeful and encouraging and the gold production this year shows a considerable increase over last year, the total amount being \$500,000. The Atlin camp is of course smaller than the Klondike field; the number of men working placer ground being nearly 800 as below:—

| Men working mineral claims ..... | 150 "    |
| Total .....                      | 770 "    |

I visited Pine and Spruce Creeks and all the miners I met were very cheerful and well satisfied with their operations. There did not seem to be an idle man in the whole district. The number of claims recorded in the district, 1,600.

New and up to date methods are being introduced, and mine owners are preparing for extensive developments. Quartz has been discovered and some experimental shipments are being made for analysis, which it is hoped will prove favourable.

The merchants are contented and distinctively Canadian in their sentiments. All that I have said in reference to the commodities and freight rates and other difficulties existing in the Yukon territory will apply to this field. There is an abundant supply of water for sluicing purposes which is a great advantage in cleaning up.

This district is entirely under the jurisdiction of the provincial government of British Columbia. The government building, the headquarters of the gold commissioner and other government officials, are very commodious and comfortable.

The president and members of the board of trade were very cordial in giving information. The Canadian Bank of Commerce has a branch here and serve the community satisfactorily.

#### ACKNOWLEDGMENTS.

I desire to tender my hearty appreciation of the kindness and attention and information received from the acting Governor, Major Wood, the members of the Yukon Territorial Council and every member of the government staff.

I am specially indebted to Mr. E. S. Busby, collector of customs, and to Mr. Hartman, postmaster, and to all the officials of the two departments of which they are the competent chiefs.

The business men of Dawson were exceedingly communicative and readily furnished me the information I desired.

I had great pleasure in meeting with Mayor Macaulay and the city council and in discussing trade conditions with them. I found them reasonable, level headed, common sense business men and anxious for the future welfare of the city and district.

## EXTENDING CANADIAN EXPORT TRADE.

After carefully studying conditions of the export trade from Canada, I am convinced it will continue to develop and increase in the line of the natural products of the country, but there are many lines which can be exported by a proper effort to market these products in a foreign country, and by the present methods our trade in those lines will be slow.

I am sure if an exporters' syndicate or large commercial company were formed with the view of pushing Canadian goods in foreign countries it would work out to the satisfaction of the shareholders of such company and to the credit of our country.

Large warehouses could be established at say Liverpool, Glasgow, Cape Town and other shipping points in South Africa and in the West Indies, and from time to time at any good port in any country where business would warrant. Full cargo lots could be shipped from Canadian ports and direct steamer communication would be established on simple and natural lines. The export trade of the Dominion would largely increase. Canada would become better known, and trade would be direct and on a sound basis. We all believe that Massey-Harris Co.'s foreign business has been so successful because of operating and controlling their own agencies all over the world. Very few firms can afford to do this, but it can be done collectively and successfully on the methods above advised.

Canada is at present enjoying an era of growth and prosperity unparalleled in its history and from present appearances it is going to continue. There are living and dying nations and Canada, although young, is very much alive. The battles of the future are to be fought out on commercial lines and the active and aggressive people will win. When the Prince of Wales returned to Britain a year ago he advised the English people to 'wake up.' Canadians also need the same advise to 'wake up.' All our factories will require to double up their capacity during the next few years. Let us realize our responsibilities and our future, and being filled with a noble patriotism go forward and do our share in working out the destiny of our great country.

I have the honour to be,  
Your obedient servant,

GEORGE ANDERSON.

## II.—NEW TARIFFS.

During the month under review there have been distributed from this department to all the principal Custom-houses and Boards of Trade throughout the Dominion, copies of all foreign and colonial tariffs and supplements thereto, as furnished during that period by the International Customs Tariff Bureau, which are always available for reference by those interested therein, resident at the principal centres of trade. The following British and Colonial are supplemental to those published in the departmental Annual Report, 1893, and the quarterly and monthly reports since published, and comprise all additions thereto or changes therein, so far as the department has authentic advice.

### (A.)—THE COMMONWEALTH OF AUSTRALIA.

NO. 14 OF 1902.—‘AN ACT RELATING TO DUTIES OF CUSTOMS.’

[Assented to September 16, 1902.]

Be it enacted by the King's Most Excellent Majesty, the Senate, and the House of Representatives of the Commonwealth of Australia, as follows:—

1. This Act may be cited as the Customs Tariff 1902.

2. The *Customs Act* 1901 shall be incorporated and read as one with this Act.

3. In this Act, except where otherwise clearly intended—

‘Tariff’ means the Tariff proposed in the Parliament on the eighth day of October, one thousand nine hundred and one.

‘Tariff’ alteration’ means any alteration of the Tariff since proposed in the Parliament.

4. The time of the imposition of uniform Duties of Customs is the eighth day of October one thousand nine hundred and one, at four o'clock in the afternoon reckoned according to the standard time in force in the State of Victoria and this Act shall be deemed to have come into operation at that time.

5. The Duties of Customs specified in the Schedule are hereby imposed according to the Schedule, as from the time of the imposition of uniform Duties of Customs or such other later dates as are mentioned in the Schedule in regard to any particular items, and such duties shall be deemed to have been imposed at such time and dates, and shall be charged, collected, and paid to the use of the King for the purposes of the Commonwealth on all goods dutiable under the Schedule imported into Australia after the time when such duties are deemed to have been imposed, or before such time if not entered for home consumption until after such imposition.

6. All Duties of Customs collected pursuant to any Tariff or Tariff alteration shall be deemed to have been lawfully imposed and collected, and no additional duty shall be payable on any goods on which duty was so collected, merely by reason that the rate at which the duty was so collected is less than the rate of duty specified in this Act, and no duty shall be payable in respect of goods delivered for home consumption free of duty pursuant to any Tariff or Tariff alteration.

THE SCHEDULE.

THE CUSTOMS TARIFF.

All goods to be free if not included among dutiable goods.

All imitations to be dutiable at the rate chargeable on the goods they imitate, unless such rate is less than the rate which would otherwise be chargeable on the imitations.

‘Proof’ or ‘Proof Spirit’ means spirit of a strength equal to that of pure ethyl alcohol compounded with distilled water so that the resultant mixture at a temperature of 60° Fahrenheit has a specific gravity of 0.9198 as compared with that of distilled water at the same temperature.

‘N.E.I.’ means ‘not elsewhere included,’

‘Departmental By-law’ means By-law made by the Minister, and published in the *Gazette*.

‘Proclamation’ means proclamation by the Governor-General published in the *Gazette*.

## (B.)—TRANSVAAL.

*Customs Tariff Amendment Ordinance, No. 22 of 1902, which was assented to by the Governor on October 4, 1902.*

The new ordinance amends the rates of duty on various articles imported into the colony, and repeals proclamation No. 3 of 1902, as well as so much of the Transvaal Law No. 4, of 1894, and other laws, as is repugnant to or inconsistent with the present ordinance. The alterations made by the ordinance in the rates of duty on articles other than wines and spirits were to come into force a fortnight after publication in the *Gazette*.

As the new ordinance is to be read with the tariff in force in the Transvaal prior to the outbreak of the war, it has been considered advisable to publish the complete customs tariff at present in operation, embodying all the alterations effected up to and including the date of the present ordinance, as follows :—

(a) Under ordinance No. 22 of 1902.

The importation of guns, pistols, revolvers, ammunition, dynamite, and other explosives, can only take place under permit. In a Government Notice (No. 512 of 1902), published in the same number of the 'Transvaal Gazette', it is stated that 'the existing duty on dynamite has been left unaltered, as certain questions bearing on the conditions of its manufacture in, and importation into, the Transvaal, are still under discussion. This duty will, however, be separately dealt with as soon as possible.'

NOTE.—It must be pointed out that in addition to the import duties, a transit duty of 3 p.c. is imposed on most articles imported into the Transvaal through the Cape of Good Hope, Natal, Orange River Colony, Basutoland, the Bechuanaland Protectorate and Delagoa Bay.

*Form of Declaration for ad valorem Goods.*

Section 7 of this Ordinance provides that in all cases where the duties imposed upon the importation of goods into this Colony are charged not according to the weight, tale, gauge, or measure, but according to the value thereof, such value shall be ascertained by the declaration of the importer of such goods in the manner and form following, that is to say:—

I, the undersigned A.B. .... do hereby declare that the above is a true and complete return of all the goods contained in the above mentioned packages, and that the values given of the same are the true current values of the same at the place where the goods were purchased for importation into the Transvaal.

The above declaration signed the..... day of..... in the presence of

..... Collector.

Which declaration shall be written on the bill of entry of such goods and shall be subscribed with the hand of the importer thereof in the presence of the officer of Customs, and the said values shall be the sum whereon duty shall be levied.

It is provided by section No. 11, that for the purpose of entry for Customs and collection of duty on goods imported into the Colony by parcels post, any form and label affixed to the parcel under the postal regulations shall take the place of the declaration required under section 7 of the Ordinance.

*Places through which goods may be imported or exported.*

A proclamation (No. 8 of 1902) has also been received, which was issued by the Governor on the 4th ult. in accordance with section 13 of Ordinance No. 23 of 1902, declaring that all goods may only be imported or exported through the following places:—

Kuzaansdrift, Umtonganeni, Middelpuntsdrift, on the Zululand-Transvaal border; De Jagersdrift, Newcastle, Volksrust, on the Natal-Transvaal border; De Langesdrift, Robertsdrift, Zandrift, Grobelersdrift, Engelbrechtsdrift, Vereeniging (Viljoensdrift), Lindequesdrift, Rietpoort, Venterskroon or Schoemansdrift, Rietfontein, Koolmyndrift, Commandodrift, Bloemhof and Christiana, on the Orange River Colony-Transvaal border; Grootpan or Wonderfontein, Rooigrond, Ottoshoop, Derdepoort, Buffelsdrift, on the Bechuanaland-Transvaal border; Hendriksdal, on the Rhodesian-Transvaal border; Kotani Poort, on the Portuguese-Transvaal border; Darkton, Bakenkop, Derby, Makyanpad and Mahamba, on the Swaziland-Transvaal border; Pretoria, Johannesburg, Elandsfontein (Germiston), Boksburg, Krugersdorp, Roodepoort, Potchefstroom, Klerksdorp, Wolmaransstad, Schweizer-Reinecke, Standerton, Heidelberg, Barberton, Utrecht, Piet Retief, Ermelo, Middleburg, Lydenburg, Leydsdorp, Pietersburg, Lichtenburg, Zeerust, Rustenburg and Ventersdorp.

## (B.)—TURKS AND CAICOS ISLANDS.

## AN ORDINANCE OF THE LEGISLATIVE BOARD OF THE TURKS AND CAICOS ISLANDS

*To impose other duties of Customs than those now payable. (No. 8, 1884.)*

Whereas it is expedient to impose other customs duties than those now payable. Be it enacted by the Legislative Board of these Islands as follown :

I. That in lieu and instead of the existing Customs duties now by law payable there shall be collected and paid unto Her Majesty, her heirs and successors for the support of the government of the said Turks and Caicos Islands upon all goods, wares and merchandise imported or otherwise landed or brought into any of the Islands within this dependency from any port or place without the same the several duties set forth in the schedule to this ordinance annexed.

II. That all articles imported or supplied out of a bonded warehouse for the Imperial or Colonial service shall not be liable to the payment of any duties whatever.

III. That all duties payable under this ordinance shall be paid and received according to the imperial weights and measures and in all cases where such duties are fixed according to any specified quantity or value the same shall be deemed to apply in the same proportion to any greater or less value or quantity.

IV. In all cases where the duties imposed upon any goods imported into this dependency are charged according to the value of such goods, such value shall be taken to be the first cost of the goods at their place of shipment without the addition of any shipping or other charges thereon; and it shall be the duty of the chief or other revenue officer taking the inward entry to require the party making the entry to produce the original invoice showing the cost of the articles at the place at which they were purchased. Provided always, that if it shall appear to such revenue officer that such articles have been invoiced below the real and true value thereof at the place from whence the same were imported, or if the invoice price be not known or cannot be ascertained the value of the same in these Islands shall be determined by two competent persons to be appointed for that purpose by the Commissioner and the duties shall be paid thereon.

V. That whenever any articles subject on regular importation to an *ad valorem* duty shall be brought into this dependency otherwise than by regular importation, or whenever any wrecked or damaged goods, wares or merchandise subject to an *ad valorem* duty shall be imported into these islands (such damage not having occurred on the voyage from the last port of entry) and when the requisite information for perfect entry of the same as to the cost of value in the country of production or place at which they were originally shipped cannot be ascertained or obtained, the value of such articles shall be taken to be the value at the port of entry to be determined as provided in the preceding section or the price which they shall realize at auction when so sold and delivered for consumption therein.

VI. That the following ordinance and parts of ordinances shall be and the same are hereby repealed : Section 12 of ordinance No. 7 of 1849. Sections 1, 2 and 9 of ordinance No 12 of 1868. Ordinance No. 7 of 1869. Ordinance No. 5 of 1881 so far as the said ordinance applies to sections 1, 2 and 9 of ordinance No. 12 of 1868.

VII. This ordinance may for all purposes be cited as the "Tariff Ordinance 1884" and shall come into operation as soon as Her Majesty's confirmation thereof or the provisional assent thereto of His Excellency the governor in chief or other person administering the Government of Jamaica shall have been proclaimed within these Islands.

(A.)—UNITED KINGDOM.

I.—ORDER OF THE BOARD OF AGRICULTURE, DATED AUGUST 1, 1902, IN REFERENCE TO THE LANDING OF ANIMALS FROM THE ISLAND OF ALDERNEY.

1. The Foreign Animals (Amendment) Order of 1902 shall not apply to the Island of Alderney, or to any animal brought therefrom, and any such animal may be landed in Great Britain in accordance with the provisions of the Channel Islands Animals Order of 1896, except that such Order shall be read as if “the islands or Jersey and Alderney” were therein substituted for “the Channel Islands”.

*Commencement.*

2. This order shall come into operation on the eighth day of August, one thousand nine hundred and two.

*Short Title.*

3. This order may be cited as the Alderney (Animals) Order of 1902.

II.—FRUIT, CANNED AND BOTTLED, PRESERVED IN THICK SYRUP: REDUCTION OF RATE OF DUTY.

*(General Custom Order No. 72, of September 15, 1902.)*

The board direct that, on and after 1st instant, duty be charge on fruit, canned and bottle, other than fruit liable to duty as such, preserved in thick syrup, at the rate of 2s. 6d. the cwt. instead of 3s. as heretofore. The necessary adjustment is to be made in the accounts of any importations entered since the 1st instant, inclusive.

III.—RATE OF DRAWBACK ON EXPORTED BRITISH-MANUFACTURED MAIZE STARCH.

*(General Customs Order No. 76, of September 30, 1902.)*

The board have directed that drawback be allowed on exported maize starch of British manufacture at the rate of 2 $\frac{3}{4}$ d. per cwt

All duly substantiated claims in respect of British-manufactured maize starch exported since May 7 last inclusive will be settled in the usual manner by the collector, London, at that rate accordingly.

## (B.)—BRITISH INDIA.

## I.—CUSTOMS CIRCULAR N° XII OF 1902, CONTAINING RULES FOR THE IDENTIFICATION OF SUGAR CHARGEABLE WITH AN ADDITIONAL OR SPECIAL DUTY.

(NOTIFICATION.—*By the Government of India, Finance and Commerce Department, No. 4439 S. R. dated August 14, 1902.*)

In exercise of the powers conferred by section 8 A, sub-section (2), and section 8 B, sub-section (3), of the Indian Tariff Act, 1894 (VIII of 1894), as amended by the Indian Tariff Amendment Act, 1899 (XIV of 1899), and by the Indian Tariff Amendment Act, 1902, (VIII of 1902), the Governor General in Council is pleased to make, with effect from November 1, 1902, the following rules for the identification of sugar chargeable with an additional or special duty imposed under sub-section (1) of the said sections, respectively, and for the assessment and collection of such additional or special duty, namely :

## RULES.

1. For the purposes of these rules, unless there is anything repugnant in the subject or context, “customs-port”, “chief customs-authority”, “customs-collector”, “owner” and “public warehouse” have the meanings respectively assigned to them in the Sea Customs Act, 1878 (VIII of 1878).
2. Where any sugar is imported into any customs-port, the owner shall declare to the customs-collector in what country such sugar was produced, and shall furnish him with such other information as may be necessary to enable him correctly to assess the additional or special duty (if any) chargeable under sub-section (1) of section 8A or 8B, respectively, of the Indian Tariff Act, 1894 (VIII of 1894).
3. (1) Where the information required by rule 2 is not furnished, the customs-collector shall deposit and detain the sugar in such part of the customs-house premises as he may deem suitable.  
(2) The owner of any sugar deposited and detained under sub-rule (1) may, at any time, clear such sugar on payment of the additional or special duty leviable thereon and of the other charges payable to the customs-collector, whether for wharfage-fees or otherwise, in respect of the same.
3. For the purposes of sub-rule (2) and for the purpose of calculating the surplus payable to the owner under section 88 of the Sea Customs Act, 1878, the additional or special duty leviable upon any sugar deposited and detained under sub-rule (1) shall, if the information necessary for the correct assessment of the additional or special duty leviable thereon has not been furnished, be assessed at such rate not exceeding the highest rate of additional or special duty leviable upon any class of sugar as the Governor General in Council may, by general or special order, fix in this behalf.
4. The customs-collector may accept the information required by these rules in any form which he may consider sufficient; and he shall accept it if given in the form and manner hereinafter prescribed.
5. Where sugar is imported into any customs-port from a bonded warehouse in the United Kingdom, the owner shall furnish the customs-collector with the following documents, namely:
  - (a) A certified copy of the delivery warrant of the British Custom House;
  - (b) A certified copy of the shipping bill; and
  - (c) A declaration in writing of the exporter in form A or form B, as the case may be, stating:
    - (i) The country in which the sugar was produced;

- (ii) The date of shipment from the country (if any) from which the sugar was exported to the United Kingdom ;
- (iii) Where the sugar was not produced in the country referred to in sub-head (ii), the date on which it was exported from the country in which it was produced ; and
- (iv) Whether the sugar is cane or beet.

6. Where refined sugar, having passed through a refinery in the United Kingdom, is imported from the United Kingdom into any customs-port, the owner shall furnish the customs-collector with the following documents, namely :

(a) Declaration in writing by the refiner in form C, or by any person authorized by a power of attorney from such refiner in form D, stating :

- (i) The particulars of the raw sugar from which the refined sugar was manufactured ;
- (ii) The country from which such raw sugar was imported into the United Kingdom ;
- (iii) The date of shipment from the country referred to in sub-head (ii) ;
- (iv) Where this information is available at the time of importation into the customs-port, the country in which the raw sugar was produced ; and

(b) A declaration in writing by the exporter in form E, or by any person authorized by a power of attorney from such exporter in form F, identifying the sugar entered for shipment with the sugar referred to in the declaration prescribed in clause (a).

7. (1) In the case of any sugar :

(a) Which, being refined sugar, has been imported, on payment of duty, into the United Kingdom and has been exported thence without drawback to any customs-port ; or

(b) Which though nominally imported into the United Kingdom, has merely passed through a port in the United Kingdom in transit to be re-exported thence to any customs-port in the same or another bottom ; or

(c) Which has been imported into any customs-port from any country other than the United Kingdom ; the owner shall furnish the customs-collector with one of the following documents, namely :

- (i) Where the sugar was produced in the country from which it was exported either to the United Kingdom or direct to India, a certificate by the exporter in form G ;
- (ii) Where the sugar was produced in a country other than that from which it was exported either to the United Kingdom or direct to India, a certificate by the shipper in form H.

(2) Where any sugar referred to in sub-rule (1) has been exported from a port in any country other than the United Kingdom or any British possession to the United Kingdom or to any customs-port, the certificate shall be attested by the British consular officer at the port in such country.

(3) Where, in any case referred to in sub-rule (2), the British consular officer so desires, the certificate shall have been approved and communicated to him by a local Chamber of Commerce.

## II.—CUSTOMS CIRCULAR NO. XIII OF 1902, CONTAINING PROHIBITION TO TAKE OUT OF BRITISH INDIA BIRDS' SKINS AND FEATHERS.

(*Finance and Commerce Department Notification No. 5028 S. R., dated September 19, 1902.*)

In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to prohibit the taking by sea or by land out of British India of skins and feathers of all birds other than domestic birds, except (a) feathers of ostriches and (b) skins and feathers exported *bona fide* as specimens illustrative of natural history.

## (B.)—MAURITIUS.

## I.—SURCHARGE OF 4 P. C. ON IMPORT DUTIES AT THE CUSTOMS.

*(Ordinance No. 25 of December 30, 1901.)*

This ordinance, which entered into force on the 1st August, 1902, provides *inter alia* that on and after the date of its coming into operation, a surcharge of 4 p. c. shall be levied on all sums payable to the Government in virtue of any law now in force or to be put in force hereafter with respect to all customs duties, whether fixed or *ad valorem*, on goods imported into Mauritius. Provided that such surcharge shall not be levied on any surcharge which may hereafter be temporarily imposed on the said customs duties.

## II.—AN ORDINANCE TO AMEND ORDINANCE NO. 3 OF 1890, ENTITLED AN ORDINANCE TO AMEND THE HARBOUR DUES AND TO CONSOLIDATE THE LAWS RELATIVE THERETO.

*(No. 5, assented to July 7, 1902.)*

*(No. 7 of July 4, 1902.)*

1. This ordinance may be cited as the Customs Tariff Amendment Ordinance, 1902, and shall be read as one with the Customs Tariff Ordinance, 1895, hereinafter termed the principal ordinance.

2. The duty on malt liquor : ale, beer and porter, in wood—instead of being at the rate of six pence per gallon as specified in the table of duties in the first schedule of the principal ordinance, shall be at the rate of seventeen shillings per hogshead of 65 gallons, Winchester measure ; and the said schedule is hereby amended accordingly.

## IV.—COMMERCIAL AGENCIES.

The following Canadian Commercial Agents (whose addresses are given) will answer correspondence relative to commercial and trade matters, and give information to those interested as to local trade requirements in the districts they represent.

Such reports of general interest as have been received from them since the publication of the last monthly report of this department are appended.

J. S. Larke, Sydney, N.S.W., agent for Australasia.

James G. Jardine, Cape Town, South Africa, agent for South Africa.

G. Eustace Burke, Kingston, Jamaica, agent for Jamaica.

Robert Bryson, St. John, Antigua, agent for Antigua, Montserrat and Dominica.

S. L. Horsford, St. Kitts, agent for St. Kitts, Nevis and Virgin Islands.

Edgar Tripp, Port of Spain, Trinidad, agent for Trinidad and Tobago.

C. E. Söntum, Christiana, Norway, agent for Norway, Sweden and Denmark.

A. D. Campbell, Buenos Ayres, agent for Argentine Republic and Uruguay.

A. Poindron, 10 Rue de Rome, Paris, agent for France.

In addition to their other duties, the undermentioned Canadian agents will answer inquiries relative to trade matters, and their services are available in furthering the interests of Canadian traders :—

J. G. Colmer, 17 Victoria Street, London, S.W., England.

Harrison Watson, Curator for Canadian Section, Imperial Institute, London, England.

G. H. Mitchell, 15 Water Street, Liverpool, England.

H. M. Murray, 52 St. Enoch Square, Glasgow, Scotland.

W. L. Griffith, Western Mail Buildings, Cardiff, South Wales.

C. R. Devlin, 14 Westmoreland Street, Dublin, Ireland.

D. Treau De Cœli, 75 Marché St. Jacques, Antwerp, Belgium.

#### REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

SYDNEY, N.S.W., October 7, 1902.

The Honourable

The Minister of Trade and Commerce,

Ottawa,

SIR,—On the evening of the 26th, I received the following cable from the Deputy Minister: 'Wire price oats and probable demand.'

Next morning I replied: 'Eighty-four cents. Probably firm four months. Thin much disliked.'

Before doing this I consulted again leading produce houses and while opinions differed the general opinion was as I cabled. As I have stated in previous reports, this market is a difficult one to gauge, and that for oats is just now affected by two especial considerations—the rainfall and the importation of maize from Argentina. Several cargoes of the latter are on the way, and it was raining as I cabled, but still I deem the demand for oats, unless a very much larger quantity than I think can be landed here in four months will keep the price quoted firm. The price went up a couple of cents that morning and was two more than I quoted. I added 'Thin much disliked' because the samples sent here from Canada, as I have previously stated, have been of this sort and some of them inferior and dirty. They found no favour in the market and an offer could

not be obtained for them. The market wants a full bodied clean white oat, like the Canadian potato oat.

The position of the market just now is that there are some stocks here brought from Victoria and New Zealand. The supplies there are nearly exhausted. There will be naturally no oats from grain raised in New South Wales this year. The Victorian and Tasmanian crop is yet uncertain but cannot come on the market until late in January. The New Zealand crop is likely to be large but cannot come here until the end of March. Some may be harvested in South Australia in December, but not much. I think for this market there will be a certain demand for oats whatever may happen and at prices that I think warrants importations from Canada until the end of December, but the amount is so dependent upon the rainfall and the maize importation, and lacking samples of Canadian oats, and any statement of probable price I could not venture a statement of the probable demand lest it might be misleading. I trust I may have samples and some idea of landed cost by next steamer, and if so I will again cable. The business must be carefully done. If even a cargo of five thousand tons were thrown on the market it would be likely to cause a slump, but if it were stored and sold as required, I think a million bushels could be sold in four months in New South Wales and Queensland at prices I have quoted. As soon as the New Zealand crop can be landed here it is hardly likely Canada could compete. If the crop is large, as it is probable it will be, they can be landed under two shillings per bushel.

It is now four months' ago since I called attention to the prospective openings for grain, &c., in this market, and asked for the addresses of those who were prepared to supply these articles, with samples and prices at earliest moment. So far I have just received one reply to these requests. Already United States firms have arrangements made to take advantage of any opening that may offer and, unless I have some further advices by the next mail it is possible Canada may lose the direct trade she ought to get. I have given all the information I have and some correspondence has been begun by both letter and cable but there should have been much more done. It is a trade that must be done on the moment and hence all the lines of communication should have been arranged before hand. It is not too late for wheat, as millers are holding off from buying and are not likely to buy any quantity until they have fuller knowledge of what the Australian crop will be.

In grains as in flour, Canadians must take some risk and do the exporting. Some importation of wheat is likely to be done by Sydney firms, but it is a very conservative market and not many are inclined to do what they term 'speculative business,' that is to invest in products new to the market or from a new source. In these lines in this market as in most others the seller must seek the market and make it. After he has done so, he will find importers who will seek his products. Unless extra steamers are put on I fear trade will be impeded by lack of accommodation. I am advised the space in the mail steamers has been taken up to nearly the end of the year.

Cables published here announced that the Canadian Government had concluded a contract for a line of steamers from the Atlantic Coast to Australia via the Cape. It was read by those interested with much satisfaction, and I have been asked for information respecting it. I have none to give which created disappointment. A vigorous effort is being made to place Canadian paper on the market and it is impossible to pay charges via Vancouver, but it is believed that rates via the St. Lawrence would enable Canadian mills to secure a large share of the Australian trade in news. Other lines would be beneficially affected and it is hoped that arrangements will shortly be concluded which will send the steamers here. It so happens that the south west of Australia is the prosperous side and it is the side most difficult to reach from Vancouver. An Atlantic line would secure that trade.

#### THE SEASON'S PROSPECTS.

The Canadian, like the English papers, contain exaggerated statements of the drought conditions of Australia. They are bad, very bad in large sections of the country, but Australia is very far from being on the brink of starvation, as has been represented, nor on the verge of bankruptcy. This is a continent, and while one section is being

reduced to a desert another is enjoying the height of prosperity. Queensland's condition is very serious, but Western Australia is exceptionally prosperous. In a single state the contrasts are remarkable. I have just returned from a visit to the south eastern portion of New South Wales. The pastures were verdant and I drove ten miles through a fierce snow storm. On the other hand the little grass left in the western portion of the state was burning up under hot dry winds. It is these contrasts as well as the absence at this time of the year of the actual condition of crops that lead to such contradictory opinions.

The actual condition is bad enough and the last month has not much improved matters. Queensland had some showers, but except on the coast line they have been of little service. Hot dry winds partially neutralized the good rains that fell in August in New South Wales, and except in one or two small areas the rainfall in September has been much below the average. In Victoria the western half of the state is also dry. South Australia is in much the same condition as Victoria, Tasmania good, Western Australia very good and New Zealand hopeful.

Shearing is well under way, but the guesses as to the output vary from a decrease of one hundred thousand to two hundred thousand bales. I still believe that the losses on wool when the year is up will be counterbalanced by the increased production of gold. On the other side there will be heavy losses in grain, butter, frozen and preserved meat and other animal products that must make the year a disastrous one.

This state of things is reflected in the trade. Sydney may be taken as the typical port of Australia, as its trade is so widely extended. For the first nine months of the year the trade was:—

|              |            |
|--------------|------------|
| Imports..... | 15,626,617 |
| Exports..... | 11,420,718 |

A decline of nearly a million and three quarters in imports and a million and a quarter in exports as compared with the same period of last year. These decreases are likely to increase in proportion for the last half of the year and in imports for the first half of next year. These imports nevertheless are surprisingly large under the circumstances as the following figures show:—

| IMPORTS.                      | Total,<br>January 1 to<br>September<br>27, 1902,<br>inclusive. | Total for<br>corresponding<br>period<br>last year. |

| Timber.....                   | 306,437  | 398,975  |
| Tobacco and cigars.....       | 229,119  | 267,359  |
| Wheat.....                    | 85,077   | 367  |

This return shows a heavy diminution in the importation of building material, though in many lines the prices are higher than last year. Though the importations have decreased the re-export of these goods to the other states and the Pacific Islands show increases, so that the houses are not carrying such abnormally heavy stocks as the imports might indicate. Orders are even more carefully given than six months ago and New York firms are especially complaining that their business is falling off. It must not be understood that there is any paralysis. At the worst I cannot think that there will be a decrease of more than twenty per cent in imports this and next year. The Federal Finance Minister expects a considerable increase from the customs returns of New South Wales and Western Australia for the current year over last year but a decrease in the other states due in part to lower rates of duties.

There have been some considerable failures amongst retail traders in interior towns both of Queensland and New South Wales, but the credit of the large houses is unshaken. A Canadian firm doing business for four years with wholesale and large retail dry goods firms states that its amounts have been so promptly paid that it has never had to draw a draft on any of its customers. So far as I am aware no Canadian firm doing business with such houses has made a bad debt this year. There is reason to hope that Australia will pass through the worst drought in its history without a financial crisis.

#### EMIGRATION.

I receive callers and some letters asking for information respecting Canada's inducements for settlers. Nearly all are of a desirable class, young men who have had some experience in agricultural or pastoral work. Within the last hour I have had three callers and one letter, representing four families, two having considerable capital. This is the natural consequence of the prolonged drought. I state that Canada is not promoting emigration from Australia, but as many express their intention of leaving Australia, I beg to recommend that some descriptive literature be sent to me. It is sometimes a question whether the destination shall be Canada or the United States, and there can be no hesitation in such cases in using proper means to direct the inquirer to Canada.

#### BUTTER.

A small lot of butter came to Brisbane in the *Miowera*. To my inquiries the importers, Messrs. J. & T. Heaslop replied as follows :—

Dear Sir,—Yours of the 30th ultimo to hand inquiring re-shipment of butter we recently had from Vancouver. We have much pleasure in stating that the butter arrived in excellent condition, having come over in the cold room of the steamer. If anything, it is rather too rich in colour for the taste of the Brisbane people, but as it arrived on a bare market and kept in a good sweet state for some days, though exposed to the air, it went off quickly.

Our experience is, that butter that has been kept in very cold stores and is then opened and exposed to the atmosphere in Queensland goes off much more quickly than butter which is fresh made.

The get up of it was very satisfactory, some of it was in 28 lb. boxes and some in 56 lb. boxes, each box covered with a piece of sacking. It is evident to us that your people in Canada understand how to ship butter better even than we do in Australia.

We may mention that this order was given only three days previous to the steamer leaving Vancouver, and we presume the butter was kept in the cold stores at that port or somewhere else within reasonable distance.

We shall be glad to hear from you of any other lines that you think would be saleable on this side.

We may mention that the butter in question came from Messrs J. McMillan & Co., and we purpose writing that firm and thanking them for shipping such good quality and with such despatch.

This is an indication of what could have been done had the openings for the past three months been availed of. The price has now declined and in Sydney is too low to pay to import.

## FROZEN HOGS.

I cabled to-day 'Frozen hogs fourteen to sixteen cents—Free.'

All frozen meat is free under the present tariff, and it seemed to me that the cold storage capacity of the mail steamers could be utilized in shipping hogs from the North-west for pork the size used is from fifty to sixty-five pounds in weight but for baconers much heavier, up to 175 pounds are in strong demand. For the lighter carcasses butchers are paying sixteen cents and for baconers up to eighteen are paid, but I quoted lower rates to cover expenses of handling. A small cargo has just arrived from Chicago which looked well and brought good prices. They should present a good appearance and to this end it would be well to case in cotton as frozen mutton is. The market here and in Brisbane would take four thousand per month if properly handled. There is a prejudice against frozen mutton and beef but pork carries well. So far no business has been done as price quoted in Vancouver, 13 cents is too high, but through shipments from the North-west ought to be had at figures that would warrant importation.

## NOTES.

I have received from the government of New South Wales the regulations governing the importation of live stock. Canada is classed with Great Britain as a clean country for all classes of stock. There is a requirement of sixty days quarantine for Canadian as against forty for British stock, due to the longer voyage required of the latter.

I have reason to believe that orders will go forward for wheat and sample lots of barley for malting purposes. Inquiries are active on the part of first-class houses. Orders have already been given for frozen poultry. Potatoes and onions have not advanced in price as anticipated. Onions are surprisingly low for the season and profitable importation is impossible. Potatoes are likely to advance.

I have the honour to be, sir,

Your obedient servant,

J. S. LARKE.

## (B.)—SOUTH AFRICA.

## REPORT OF COMMERCIAL AGENT.

(*Mr. James G. Jardine.*)

CAPE TOWN, SOUTH AFRICA, October 10, 1902.

The Honourable,

The Minister of Trade and Commerce,  
Ottawa, Canada.

SIR,—The returns for 1900 and 1901, and also for the first six months of 1902, show an unbroken advance for British exports in South Africa, and notwithstanding freight rings, the United States, Austrian and German competition, the British trade in South Africa increases month by month. British goods received at the ports of Cape Colony, Natal and Delagoa Bay during 1900 amounted to over sixty-five million dollars.

In 1901 to upwards of eighty-seven million dollars, and for the first six months of this year have risen to fifty-six million dollars, and before the close of the year 1902 they are expected to reach one hundred and twenty million dollars. It is therefore abundantly evident that South African importers are certain to place a large percentage of their orders with the mother country, and at the same time give the preference to Canada and Australia over the United States and Germany. Even the Dutch are disposed to purchase from the colonials wherever possible. Somehow they have a sincere respect for the courage and physique of our colonial contingents.

Exports of colonial merchandise to South Africa in 1900 amounted to six million dollars ; in 1901 to eight million five hundred thousand dollars ; showing an increase of two million five hundred thousand dollars over the previous year. Our neighbours to the south are increasing their exports to South Africa in the cheap and light class of agricultural implements (for repatriation and native trade), also builder's hardware and tools, freight and tram cars, cycles, automobiles, boots and shoes, food stuffs such as wheat, flour, canned meats, pickled meats, pork and lard. The imperial authorities at Pretoria have placed large orders with some agricultural firms in the United States for the cheapest kind of ploughs, &c., to be used by the Boer farmers and other repatriated settlers. The commissioner claims that the British and Canadian implement makers don't manufacture this class of stuff. As many thousands more will be required during next year, I should be glad to hear from Canadian firms who are in a position to turn out such goods.

During the next few years upwards of thirty million dollars will be expended by the city council of Johannesburg in a drainage system, water installation, electric tramways, erection of municipal buildings and a large number of dwellings for municipal employees, &c., they have the most up-to-date and progressive council to be found anywhere. These city fathers were chosen by Lord Milner from the very best business men of the Burg, and from the mayor downwards they give their time ungrudgingly to the city's interest without fee or reward. If Johannesburg is fortunate enough to retain men of their 'calibre' it will be a clean and beautiful city in a few years, with magnificent buildings and streets, pure water and modern sanitary arrangements.

Durban, Pietermaritzburg, Bloemfontein, Pretoria, Port Elizabeth, Kimberley and Cape Town are going to spend millions also in the near future for tramways, harbours, public buildings and other improvements. The various government railways are also compelled to improve their service by the purchase of quantities of locomotives, trucks and passenger coaches, &c. The Johannesburg and other corporations mentioned are exceedingly well disposed to everything Canadian and their manufacturers of builder's materials, tram cars, locomotives, railway coaches and freight cars, sleepers, wind-mills, &c., should be able to secure a share of this business now that an all Canadian direct steamship line is an established fact.

In the Transvaal the port of the future appears to be Delagoa Bay first, and Durban for second place. The main draw back to Durban from the standpoint of a Transvaaler is the peculiarly constructed, cork screw railway leading from it to the interior, with its many sharp curves and deep gradients, which must always be an obstacle to the cheap and rapid conveyance of goods. It is nearly five hundred miles from Durban to Johannesburg over this railway, and the haulage is one hundred miles shorter from Lorenzo Marques without its many sharp curves and deep gradients, and as the journey from Cape Town to Johannesburg is upwards of one thousand miles the gold miners of the rand naturally prefer Delagoa Bay to any other port in South Africa, and are looking forward to the day (they say not far distant) when it will become British territory and the leading port of South Africa.

The imports to the Transvaal during the six months ending June 30, last amounted to twenty-one million dollars ; as compared with five million five hundred thousand dollars of the corresponding period of last year ; and very soon imports to the Transvaal will exceed those to all other colonies combined in South Africa.

The blocking of materials of all kinds still continues at the various coast ports, but gradually the military authorities are easing the strain and it is to be hoped that very soon now the railways will be in a position to ship the merchandise (which has been

eating itself up in storage charges) to its respective owners and make room for new goods arriving.

I have been asked to send the names and addresses of numbers of persons in the various places that I have visited to Canadian exporters with a view to their acting as agents in South Africa. In several instances I have complied, in others I have not. Many of the applicants are at present representing German, English and American firms, and in such cases I fear Canadian samples would have to be sandwiched in with a score of others, and Canada would be certain in the long run to get the worst of it.

A gentleman informed me a few days ago that his firm represented an association in Canada composed of a thousand manufacturing industries. In the past it might have been possible for these esteemed commission merchants to overtake the business that Canadian exporters were able to do. Circumstances, however, have changed considerably, and now if Canada desires a goodly share of the South African trade, English and American methods for obtaining it must prevail. If manufacturers prefer to have resident agents they had better secure one at least for each of the colonies. The distances are so great and travelling so expensive that very few agents dream of covering the ground or journeying very far from Cape Town. I am of the opinion that there should be resident representatives at Cape Town, Port Elizabeth, Bloemfontein, Johannesburg, Kimberley, East London, Lorenzo Marques and Durban, and that these gentlemen should not be allowed to handle anything but Canadian wares. With the increased facilities for transportation at the present time, industries should unite in sending experienced salesmen and let them make their headquarters at the principal points, with an up-to-date range of samples, with prices figured little (if any) in advance of home quotations; bearing in mind that South African importers buy the best articles at the closest prices prevailing anywhere, and have the gold to pay for them.

Canadian business men have been handicapped sadly in the past for the want of a direct steamship service to South Africa. Business associations have long been agitating and pressing to obtain the boon of a regular service. It now depends altogether upon Canadian merchants and manufacturers themselves to take advantage of the exceptional opportunities Canada has of competing with the neighbouring Republic in many lines of goods in which they now have the monopoly. At present there are only three firms of any note doing business for Canadian houses in South Africa. All are highly respected and of excellent standing in the community, but if Canadian trade is to develop largely in South Africa the number of resident agents of push and energy must be largely increased.

Since I had the honour of addressing the Honourable the Minister of Trade and Commerce a few months ago; on the advantages to be derived by Canada from the proposed Imperial and Colonial Exhibition to be held in Cape Town, October, 1903, two other exhibitions are projected to take place in 1904, at Durban and Johannesburg. The latter to be International in its character. The projector of the Cape Town Exposition is absent in Europe, and until he returns additional information cannot be obtained. It is the general impression however, that, a common understanding will be arrived at shortly to have in 1904 a World's Fair at some central point, easy of access to the whole population of South Africa.

I have the honour to be, sir, your obedient servant,

J. G. JARDINE,

(C.)—AUSTRALIA.

REPORT OF COMMERCIAL AGENT.

(*Mr. J. S. Larke.*)

SYDNEY, N.S.W., November 4, 1902.

The Honourable,  
The Minister of Trade and Commerce,  
Ottawa.

WESTERN AUSTRALIA.

SIR,—I have not received the detailed statement of the trade of Western Australia for 1901, but the summary shows the following figures for 1900 and 1901.

|              | 1900.      | 1901.      |
|--------------|------------|------------|
| Imports..... | £5,962,178 | £6,454,171 |
| Exports..... | 6,852,054  | 8,515,623  |

Ten years ago the exports were less than a million pounds. The imports were then fifty per cent more, but in 1899, the exports exceeded the imports and the state is now in a healthy and flourishing position. The imports in which Canada could become interested are :—

|  |          |
|--|----------|
| Meat and fish.....                       | £118,833 |
| Bacon, hams and other provisions.....    | 524,114  |
| Wearing apparel boots and shoes, &c..... | 734,003  |
| Timber, cement and furniture.....        | 129,343  |
| Ammunition and explosives.....           | 153,271  |
| Machinery of all kinds.....              | 616,770  |
| Flour, grain and potatoes.....           | 304,566  |
| Jams, jellies and fruits .....           | 118,286  |
| Paper, books and stationery.....         | 108,167  |

Its exports still are chiefly gold, copper and tin though its export of timber, wool and other pastoral products are steadily increasing.

Except in one or two lines Canada has scarcely touched the trade of this State and is not likely to do much until there is connection with the Atlantic Provinces. I have not yet visited Western Australia, but if there is a probability that the South African steamers will extend their voyages to Australia it is advisable that I should do so to enlist commercial men in business from Canada. Its gold output is expanding and its population increasing at a rate of over thirteen per cent per annum, so that there is no reason to doubt that its imports will grow and its trade be in a sound condition.

THE TRADE OF THE COMMONWEALTH.

A summary statement of the trade of the Commonwealth for 1901 has been issued, which gives :—

|                        | Imports.    | Exports.    |
|------------------------|-------------|-------------|
| New South Wales.....   | £26,928,218 | £27,351,124 |
| Victoria .....         | 18,927,340  | 18,646,097  |
| Queensland.....        | 6,376,239   | 9,249,366   |
| South Australia.....   | 7,478,288   | 8,318,820   |
| Western Australia..... | 6,454,171   | 8,515,623   |
| Tasmania.....          | 1,965,199   | 2,945,757   |
|                        | 68,129,455  | 75,026,787  |

Of these amounts £25,695,608 of the imports came from within the Commonwealth and of exports £25,341,278 went to states of the Commonwealth. The trade beyond the inter-state was, imports £42,433,847, and exports £49,685,509. More than one-half the imports and exports were from and to the United Kingdom. The imports of 1901 were £1,085,156 less and the exports £2,273,386 more than those of 1900.

#### THE DROUGHT AND MARKETS.

The coastal districts and a large part of the Highlands of Victoria and New South Wales have continued to receive good showers, but the interior of these states and Queensland are yet very dry. All hope of a harvest sufficient to supply Australian consumption has now passed away and it is conceded that grain and flour, oats, corn and barley will have to be imported. As to the extent of the shortage experts are not agreed and vary from one hundred thousand tons to twice that quantity.

So far, the business done in hard wheat from Manitoba is very small, though some four cargoes of wheat from California and a quantity from Oregon have been sold. A great deal of cabling has been done but it has been very much of this nature:—

Sydney cables 'What will you sell one thousand tons or more C. I. F. Sydney' and Canada replies:—'What will you give'? And nothing has come of it. In one instance, where a sale of considerable amount was supposed to have been concluded it failed through misunderstanding over the long and short tons. The cables from California bring fixed offers and business is done, San Francisco has the advantage over Vancouver in being able to more easily secure charters for sailing vessels and at lower rates and the sales are for grain by such vessels. The millers so far have been willing to give Californian prices for Manitoba wheat but not more, and quotations so far, where definite, have been considerably higher than for wheat from San Francisco. Transactions at the present moment are at a standstill, and business will not move to any extent until a fixed price for Australian wheat is arrived at. It is surmised that an ulterior object of the San Francisco transactions was to keep down prices of Australian wheat. South Australian is just now coming, and the price at the newspapers report business done, below four shillings per bushel is below its value. Old wheat is selling at five shillings and two-pence. Based on the value of flour, Manitoba No. 1 Hard should be worth six-pence per bushel more than local wheat, but just now, it is useless to quote even threepence more. I think the millers will yet buy at an advance over local. It must be remembered that while Hard Wheat flour is worth more than that from local wheat, the offal is worth less, and it is from the offal that the Australian millers this year have been making their profit.

#### FLOUR.

Before the drought, Manitoba flour was selling at four pounds per ton above local flour. To-day the difference is only two pounds. This curious condition of the market is due in part to the large users having bought ahead and the market being fairly well supplied and mainly because Minneapolis Hard wheat flour, via New York, is offered at slightly lower figures than Canadian flour. I have complaints from one or two houses that some of the Canadian mills are slow in filling their orders and frequent inquiries are made for mills capable of producing a high-grade patent. The flour is now regularly quoted on the Melbourne market and its use is spreading to the smaller towns. The high local freight rates are a barrier to its general use. As I write this, I am informed that large sales of Minneapolis flour and some Manitoba wheat have been made to come via New York.

#### OATS, BARLEY AND PEASE.

Some purchases of Canadian oats have been made for milling purposes and two of the largest firms are negotiating for feeding oats. The hindrance to trade is the absence of a standard sample of oats, so that purchases can be made guaranteed equal to sample.

The price was right and though rain has improved the grass, yet the present market rate is likely to be maintained until New Zealand oats arrive in March.

I have repeatedly called attention to the possibility of a market here for barley and pease, and written letters to such firms as I know, without getting a response. Barley for both malting and *pearling* are needed. For the former the Chevalier of California is liked and a sale of nearly a million bushels has been made in Melbourne. I have an inquiry from one firm for twenty thousand bushels of barley for pearling. The same firm wants about twenty-five thousand bushels of white pease for splitting and two or three thousand bushels of Blue Prussian Pease. I should like to get samples and prices. In the case of grain from Ontario, the price should be quoted sacks F. O. B. New York. All grain is preferred in sacks containing four bushels, as these sacks have a marketable value. The two bushel bag is practically unknown here. When quoting, the number of pounds in the bushel or ton should always be stated. In Australia the long ton of 2,240 lbs. is used for everything but flour. I called attention to this matter some months ago, in order that a distinct understanding between Canadian sellers and Australian buyers should be arrived at, so that when the time for action came there would be no doubts as to weights used. Unfortunately the pre-arrangements were not made, and as a consequence there has been much expensive cabling that might have been avoided.

#### FROZEN MEAT.

As soon as the tariff was passed and frozen meat was made free, I called attention to the possibility of bringing frozen hogs from Canada. A good deal of activity has been shown by a number of firms in bringing about trade. The cold storage space of the steamers has all been taken up, I am informed, and a number of orders have been refused. Whether the space has been secured for Canadian products I am unable to say. Some sales of lard have also been made.

A sample lot of frozen poultry came from Vancouver by the last steamer. It was of excellent quality and arrived in fine condition. Orders have been placed for a quantity to arrive in December.

If it is impossible to find space this year, it is probable that if suitable dressed hogs are stored in Canada that this market will take shipments for half of next year.

#### APPLES AND POTATOES.

Sample cases of apples from British Columbia proved to be in so good condition and were of such good quality that they attracted a good deal of attention in the fruit market. A full supply of Californian fruit had been contracted for previous to this arrival, but an order for a couple of hundred cases was given, and next year the trade will be largely increased if fruit free from pests and equal to sample can be shipped.

A sample parcel of potatoes also came by the last steamer and arrived in good order, but they were carried in cool storage and therefore furnished no precedent of the manner in which potatoes would carry when shipped in the ordinary way. However, this is not of much consequence at present as the importation of potatoes from America is prohibited in Queensland by an Order in Council issued five years ago, but had been overlooked by importers until some orders had gone to Canada. Only one shipment is, so far as I know, on the way, and no others will be brought over.

#### FUTURE PRODUCE TRADE.

I have discussed the possibility of buying grains in Canada with every house known to me as likely to entertain a proposition to import, and a number have expended some amounts in cabling with poor results. The majority of these firms complain that they cannot get replies to half their cables, and that the majority of the replies are indefinite. There is no question but that New York is just now beating direct Canadian purchases in the market. It may seem to be of little importance whether the wheat is shipped

from New York or from some Canadian port provided it is Canadian wheat. Shipment via New York is building up a foreign port, giving freight to foreign railways and the profit of the transaction to foreign merchants. This ought not to be, and it seems absurd that North-west wheat should come via New York instead of Vancouver. I am not sufficiently informed of the conditions in Canada to make recommendations of what should be done, but if, as I am informed, that Winnipeg is the nearest point to the Pacific at which inspected grain can be bought, I would suggest that an inspector be at once stationed at Regina or some station further west. Grain from that point would be saved eight hundred miles of railway haul to Winnipeg and back. That officer should have power to grade oats and barley. With standard samples of these grains there is no doubt that Vancouver should compete with New York and secure a large trade.

The completion of the Pacific cable and the probability that it will be opened for business in a day or two will materially lessen the cost of cabling and benefit the Pacific trade.

THE TRADE OF 1901.

The return of the trade of the several states, Tasmania excepted, has been printed. The imports from Canada for 1900 and 1901 are :—

|                                       | 1900.            | 1901.            |

The apparently large increase of imports into Victoria is due to some extent to Canada getting credit for one line of goods hitherto credited to the United States. On the other hand the bulk of Canadian goods coming via New York are still credited to the United States.

I have the honour to be your obedient servant,  
J. S. LARKE.

## (C).—CHARGES IN THE TARIFF OF MEXICO.

The attention of the exporters and manufacturers of Canada is directed to the following cuttings from the *Mexican Herald*, recently received at this department, from His Majesty's Consul, Mexico, giving Decrees of His Excellency the President of the United Mexican States relative to (1) Rebate on the duty to be paid on foreign wheat, and (2) Payment of customs duties.

## (1).—REBATE ON THE DUTY TO BE PAID ON FOREIGN WHEAT.

(*'Mexican Herald,' Nov. 12, 1902.*)

Porfirio Diaz, constitutional president of the United Mexican States, to the inhabitants thereof, know ye:—

That in order to obviate the damage that might arise from the scarcity that is beginning to be felt in the stock of native wheat, and by virtue of the powers granted to the executive by Art. 2 of the revenue law of May 28th last, I have seen fit to decree the following:—

Art. 1. The wheat imported through the custom houses of the republic from the 15th of the present month until March 31st, 1903, will pay a duty of fifty cents per one hundred kilos gross weight.

Art. 2. From April 1st, 1903, imported wheat will again be subject to the duty set forth in section 146 of the importation tariff.

## (2).—PAYMENT OF CUSTOMS DUTIES.

(*'Mexican Herald,' Nov. 27, 1902.*)

Porfirio Diaz, constitutional president of the United Mexican States, to the inhabitants thereof, know ye:—

That by virtue of the powers granted to the executive by law of the federal congress, dated 24th inst., I have seen fit to issue the following decree providing a basis for the liquidation and payment of duties in connection with the importation of foreign merchandise:—

Art. 1. On and after the first day of January, 1903, the laws of November 30th, 1888, and May 12th, 1896, creating respectively the two per cent port works tax and the seven per cent stamp tax on import duties, will be abolished.

Art. 2. On and after the same date of January 1st, 1903, the import duties on foreign merchandise brought into the republic will continue to be adjusted in accordance with the rates set forth in the import schedule, but the sum that would be payable according to that adjustment will be reduced by fifty per cent and the amount thus found will be multiplied by the sum fixed by the department of finance for the settlement of duties during the month in question and which in no case will be less than 220 per cent. The product will represent the amount of import duties to be paid by the importer.

Art. 3. In order to determine every month the rate of settlement referred to in the foregoing article, the department of finance will take the average of the rates at which the banks of the capital have sold sight drafts on New York on each of the days comprised between the 1st and 25th of the month in which the announcement of the rate has to be made, making a reduction of 30 per cent (or less if the liabilities of the nation payable in foreign coin increase in future) on the points of difference between the fixed exchange rate of 220 per cent and the average in question. The said department, any day between the 25th and 28th of the month in question will apprise the custom-house through the general custom-house bureau, of the rate adopted and at which duties are to be settled during the following month, said rate being published in the *Diario Oficial*.

Art. 4. The rate of settlement for import duties adopted for each month will be applied to merchandise carried in ships anchoring in the port of their destination, or brought in over our frontiers after twelve o'clock on the night of the last day of the previous month and before the same hour of the last day of the current month, even though in either case the adjustment of clearance formalities be effected at a date subsequent to the last day of the month during which the rate of settlement was in force. Goods imported through the mails will be subject to the rate for the settlement of duties in force on the day of their arrival in the country.

Art. 5. The stamp tax payable at the time of their importation by alcoholic beverages and foreign cards, as well as the additional duty for the benefit of the municipalities of the towns where the custom-houses are situated, will be estimated on the basis of the import duties calculated according to the foregoing articles. The pecuniary penalties, provided by the general custom house ordinances, to correct infringements on those ordinances, will be computed in the same manner when those penalties are based on a percentage of the import duties.

Art. 6. Merchandise imported for consumption in the free zone, with the exception provided by Art. 676 of the general custom-house ordinances, will pay only ten per cent of the duties calculated according to the terms of Art. 2 of this decree; but the tax for the benefit of the municipalities as well as the stamp tax payable with respect to alcoholic beverages and foreign cards, imported for use in said zone, will be estimated and paid on the basis of the full duties in question.

Art. 7. Merchandise imported for the free zone and similar merchandise produced in that region, and which is forwarded further inland according to the provisions of section IV, chapter XXII, of the general custom-house ordinances, will pay duties at the rate of liquidation in force at the date when permission for forwarding the goods inland is solicited, and from the total of said duties the ten per cent spoken of in the foregoing article will be deducted, even though the merchandise may have been imported at any prior date. The duties on foreign goods moved from point to point of said zone will be estimated in the same manner either with a view to collecting them when there is room for so doing according to law or with a view to the imposition of penalties provided for infringements of the same law.
